A BRITISH COMPANY SUPPORTING BRITISH CARS

## Helping you care for your Discovery 4

Since the early 1980s, Rimmer Bros. has specialised in supplying parts for British cars. In 1982 we started selling Classic Triumph parts and by the mid 80's were supplying stainless steel exhaust systems for Land Rovers and other 4x4 vehicles. In 1993, we added to our range of parts catalogues when we began stocking parts for the Rover SD1.

In the summer of 2000, to celebrate 30 years of Range Rover production, we launched our parts catalogue for the Range Rover Classic. This was a natural move, as a vast number of Range Rovers are powered by the Rover V8 engine - a subject in which we specialise. This was followed by our Discovery, Discovery Series II, Discovery 3, Range Rover P38a, Range Rover L322, Range Rover Sport (up to 2009), Freelander, Defender (up to 2006) and Defender (2007 on) parts and accessories catalogues. In 2005, Rimmer Bros set up an MG Rover Parts business covering all models and more recently, Jaguar 1996 on.

We are now pleased to introduce our latest Quickfinder parts catalogue for the Land Rover Discovery 4 (2010-2016). This catalogue lists a continuously growing range of genuine, original equipment manufacturer (OEM) and aftermarket parts and accessories. Our website also features this catalogue and lists recently introduced products and parts updates.

Please note that our catalogue covers UK, European, North American and, to a lesser extent, Rest of the World (ROW) models. Although most parts listed are common to all markets, there are sometimes specific parts for certain countries that are different to those listed herein. If unsure, please contact us quoting your full VIN number.

Our customers are owners, garages and other specialists looking for a fast, reliable source of original and high quality aftermarket parts and accessories available by mail order or over the counter. We have the latest technology to ensure orders are processed efficiently and despatched promptly to wherever you are - UK or worldwide.

Our aim with this catalogue is to apply our expert parts service to the Land Rover Discovery 4, helping you to maintain and enhance your vehicle at affordable cost.

### THE CARS WE SPECIALISE IN

As well as caring for your Discovery 4, we also supply parts for Range Rover, Defender, Discovery 1-5, Sport, Evoque, Freelander, 90/110 & Land Rover 'Series' vehicles. Additionally, we also supply parts for Triumph TR2-8, Herald, Vitesse, Stag, GT6, 2000/2500/2.5Pi, Dolomite, Rover SD1,

MG Rover cars including - Rover 100/200/400/ 600/800/25/ 45/75/ZR/ZS/ZT, MGF, MG TF, Midget & Rover Mini. In addition we are developing a range of fast moving parts for Jaguar 1996 on models. Please refer to inside rear cover for details on all our catalogues.

Overseas - +44 1522 567600

## POST

Triumph House, Sleaford Road, Bracebridge Heath,  
Lincoln LN4 2NA, England

## COLLECT IN PERSON

Our sales counter is open 8.30am-5.30pm

Monday-Friday and 8.30am-1pm Saturday.

*We also offer a 'click and collect' service to save you time.*

## PAYMENT

We accept all major credit, debit and charge cards and also Paypal on orders where all items are in stock. Orders can also be pre-paid by bank transfer (in GBP/Euro/US Dollar- see website or Price Guide for details) or cheque (in GBP-please allow a few extra days for clearance). If you send cash or Rimmer Bros Vouchers, please use registered mail, as we cannot accept responsibility for any loss.

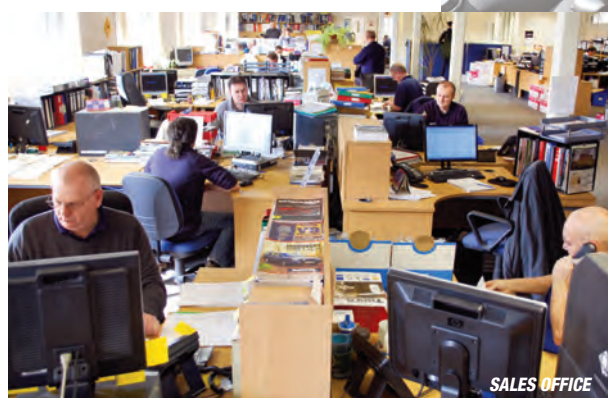

## PRICING

There are no prices in this catalogue. Use it to select the parts you need, then check the cost by referring to our website or the separate Price Guide or DVD. Our website gives up-to-the minute information regarding availability and the price of any item.

All orders will be invoiced and charged in GBP. All goods are sold subject to the price ruling at the time of invoicing.

## VAT

For details on VAT, & VAT exempt sales, please refer to our website.

# THE LAND ROVER PARTS SPECIALIST

## PART NUMBERS & IDENTIFICATION

We identify parts so that you know what you are buying. When there are alternatives to the original Land Rover part, we use a simple numbering system so that you can select the part that best suits your needs and budget. This avoids any confusion when comparing quality and price:

- **Genuine (Land Rover boxed) part** – will have a plain number
- **OEM (original equipment manufacturer) part** – will have a P1 suffix
- **Aftermarket (reproduction) part** – will have a P suffix

In addition, there is also equivalence with certain Rover/Triumph numbers or when we use our own part number where no original part number exists.

## QUOTATIONS, BACK ORDERS & SPECIAL ORDERS

### Quotations

If you require a written quotation for the part(s) and/or delivery charge(s) before ordering, please contact us.

### Back Orders

Back-ordered parts are not charged for until despatch. Upon despatch we will charge the price (in GBP) quoted at the time of ordering. Prices will be unaffected by any subsequent price alterations unless advised in writing to you. Please notify us in writing (letter, fax or email) if you wish to cancel any back ordered items. Back orders are automatically cancelled after 3 months. Back Ordered parts will be sent carriage free (some exclusions apply for export overseas). If you would prefer that your order is sent complete, please request this at the time of ordering.

### Special Orders

Certain items (coloured trim, carpets, one-off type parts, etc) are sometimes only available by special order. This means we have to order them for you specially from the manufacturer. For this reason, we require a 20% non-refundable deposit upon taking your order. The balance is payable when the goods are despatched. Please note that special order items can take several weeks to be supplied and are non returnable.

## SHIPPING

At Rimmer Bros, we opt to use the best carriers in the business to ensure your order is delivered safely, securely and on time. The shipping method and cost is based upon what you order, where you want the parts sending and how quickly you want them.

Orders are despatched as soon as practically possible. If your parts are required urgently and you want an express delivery service, please tell us.

For shipping methods and guide prices, (including packaging and handling), please refer to our website or Price Guide.

Shipping charges for export of oversize parcels outside the UK may need to be quoted once the order is picked and packed.

Once your order is shipped and providing we have your email address, we will email confirmation to you, including tracking information if applicable.

Delivery times will be dependent on location and delivery method selected.

Please note that certain 'hazardous' products, such as aerosols, paints, fluids and chemicals cannot be sent via post or by air freight.

## RETURNS & EXCHANGE OLD UNITS

### Returns

Please refer to our website or Price Guide for full details.

All returns must be pre-authorised with a returns authorisation (RA) number. Returned products without an RA number will be subject to delay and possible return to sender. All returns are subject to a physical inspection. **We must have received and inspected the product before an exchange or credit can be issued.**

## WARRANTY & LEGAL INFO

*Please refer to our website or Price Guide for full details.*

### Parts Warranty

All new and reconditioned parts are covered by a 12 month manufacturer's warranty unless specifically stated. You should notify us immediately if a potential warranty situation arises. We will then advise a course of action. Any suspected faulty part must be returned to us together with the original invoice or proof of purchase and with as much information relating to the problem as possible. **Please note that a defective part must be returned and received by us before it can be exchanged.** All warranty parts are subject to a physical inspection. This may involve returning the part to our supplier to verify the fault before it can be exchanged.

### Legal Info

Errors & Omissions Excepted. Please tell us if you think something is wrong in our catalogue. All parts offered subject to availability. All part numbers, illustrations and photographs used are intended for reference and identification purposes only and are not necessarily an exact representation of the goods supplied. Photographs of parts should be considered indicative of what we supply rather than an exact representation as sources of supply and manufacture can change. Whilst we make every effort to ensure the accuracy of product descriptions, illustrations and photographs, they are based upon information supplied by the manufacturer or distributor at the time. There may be occasions - due to circumstances beyond our control - when specifications are changed, or when goods become temporarily unavailable. Certain part numbers may have been superseded to an alternative number when a later version or updated specification is offered.

# Discovery 4

## Not Just a Refreshed Discovery 3

The 2010 model year was close to a make-or-break one for Land Rover. Into a world beset by depression and uncertainty following the financial crash of 2007/8, important facelifts of three of the five Land Rover models were due to launch. Each would continue Land Rover's steady move upmarket in terms of luxury, equipment, quality and, unnervingly given the prevailing financial climate, price. On top of that, at the same time three of the four core-model engines would also be replaced with brand new ones.

Yet the company accountants needn't have worried; when it came to it, all three new models would prosper, each one significantly more so than its predecessor. The 2010 Range Rover solidly maintained its lofty imperious position at the top of the 4x4/SUV tree, flanked by the glitzy, plusher 2010 Range Rover Sport and its slightly more utilitarian sibling, the Discovery 4 (or rather 'LR4' to North American customers, to whom the name Discovery needed a break since it reminded too many of unhappy experiences reliability-wise with the original Discovery).

Perhaps the most impressive of the three was the Discovery 4, because despite retaining the body and much of the underpinnings and mechanical equipment of the Discovery 3 it replaced, it looked and felt so different that it was impossible not to view it as a brand new model - a fact Land Rover acknowledged with the new name (though internally it still shared the 'L319' project name of Discovery 3).

## New 'Gen III' Engines

In the Discovery 3, the engine line-up had been simple: the 2.7 litre V6 Ford/PSA 'Lion' engine, adapted for off-road use, amply served the needs of diesel-loving markets such as Europe, whereas the Jaguar AJ 4.4 litre V8 petrol was the engine of choice in North American markets and elsewhere where petrol was cheap and diesel looked down on as rather messy and unrefined. For markets where engine-size tax breaks mattered or there was a need for a cost effective entry model below the big V8, Ford of Germany's 4.0 litre Cologne V6 petrol was borrowed to become the third engine in the line-up.

For the new Discovery 4, two brand new engines were added, both from Jaguar Land Rover's latest Gen III family. Diesel lovers would be impressed by the markedly smoother, more powerful and torquey 3.0 litre V6 unit with its twin-sequential turbochargers providing a variable geometry turbo at low revs and a conventional turbo to enter the fray at higher revs. The V8 petrol grew in size to 5.0 litres and received direct injection to serve up a whopping 385 bhp and 380 lb ft of torque - and that was just the normally aspirated version chosen for use in Discovery 4 (the Range Rover and Sport also had the choice of the 510 bhp supercharged 5.0 litre V8). Both new engines would be mated to the 6 speed ZF automatic transmission carried over from Discovery 3, neither offering a manual gearbox option.

If you preferred to change your own gears, the older 2.7 litre V6 diesel was still available with a choice of manual or automatic, though not for long. When this engine died at the beginning of the 2011 model year the Discovery 4 manual option died with it. The 4.0 litre Cologne V6 petrol was technically also still available from the start of Discovery 4 production, but only just; it was special order only and disappeared altogether within the year.

## Discovery, You've Changed

It was a bit like when you see an old friend years later and you do a double take because you can't believe how different they are now. The Discovery 3 to some extent left its utility image behind when the black plastic arches and bumpers were replaced by more sophisticated body coloured mouldings in 2009. Now, a year later on the new Discovery 4, the functionally styled, incandescent bulb equipped front and rear lamp clusters had disappeared too and in their places were smoother, bolder and modern LED units. Additionally the headlamps were contoured to match the new radiator grille and bumper to produce a raked back 'face' that tied in with the rest of the modern Land Rover family. Most importantly for the perceived image of Discovery 4, it tied it in with the updated more expensive Range Rover brethren that were launched at the same time.

And yet... essentially it was the same as a Discovery 3, wasn't it? Eleven years before, the change from the original Discovery to the Series II model had been far more extensive with a near complete reskin, yet the Discovery Series II still looked pretty much like its predecessor (even though it was in fact both longer and wider). By contrast the Discovery 4, even though it had the same skin pressings and dimensions as the Discovery 3, contrived to look quite different to it. But of course, by sharing its panelwork with Discovery 3, the essential Discovery styling cues - like the raised rear roofline and the Alpine lights over the rear quarter windows - were carried over unchanged.

It was a similar story inside, too. New profile seats and a redesigned, more simply equipped centre console made first impressions of the interior quite different - and more upmarket, naturally - as you opened the door and looked in. Materials borrowed from the latest Range Rovers reinforced those impressions, as did the new, clearer analogue instruments with much of the auxiliary gauge 'clutter' moved to the dash centre TFT screen. Speaking of which, the electronic aids were considerably enhanced, too, including for the first time Land Rover's surround camera system.

## Land Rover's Rock Steady Seller

As is usually and deservedly the case with a new Land Rover model, Discovery 4 was received extremely enthusiastically by motoring journals and the public alike. It won many awards; for example from the beginning to the end of production it was always voted 'Best Large SUV' and 'Best Towcar' by Auto Express magazine.

It's no accident that the Discovery 3's best sales were in 2005-7, because not only was this the period when it was still a new model but also, of course, it was before the worldwide financial crash of 2007-8 which made many potential customers rather more cautious with their money. Following the crash, Discovery 3 sales surprisingly quickly stabilised, albeit at figures about two thirds of what they had been previously. To its credit, Discovery 4 continued those rock-steady sales figures throughout its production life: for example, European annual sales always hovered around the 12,000 mark and the car actually sold as many in its last year of production as in its first. That's a major achievement when the sales staff are usually up against resistance from potential customers who know there's going to be the next brand new model on offer to them if they hang on a bit longer.

## Keeping The Momentum Going

Having said that, the Land Rover marketing and engineering departments had to work hard at keeping the customers' interest and the sales figures up: for every new model year apart from its last (2016) the Discovery 4 received regular updates, ranging from modest but significant annual improvements to a full-blown facelift for 2014.

As mentioned previously, the 2011 model year saw the end of the 2.7 litre V6 diesel (and with it went the only manual gearbox option on Discovery 4). However a two-tier diesel option remained because a new 208 bhp 3.0 litre unit arrived to supplement the 242bhp 3.0 litre already available, the lower power version continuing with 'TDV6' badging while the other became 'SDV6'.

For 2012 a new range-topping trim level - 'HSE Luxury' - was introduced, while the SDV6 diesel power output gained another 12bhp. Also now available on the SDV6 was a new, 8 speed version of the ZF automatic transmission. Vehicles so equipped came without a traditional gear lever - alarmingly to some - instead offering a combination of a 'Drive Select' rotary control in the centre console and gear shift paddles on the steering wheel.

Minor exterior tweaks accompanied some more substantial changes to the driver's and passengers' technical equipment; items like driver assistance systems, audio and in-car entertainment and comfort control systems all benefitted from updates. This had the effect of maintaining the feel of state-of-the-art for the occupants, even if the body and platform of the vehicle itself was actually entering its 8th year of production (Discovery 3 had started with the 2005 model year).

2014 saw a facelift far-reaching enough to see the Discovery 4 through till the end of its production life. The 8 speed automatic transmission now became standard across the range and a new supercharged 3.0 litre V6 petrol engine replaced the 5.0 litre V8 as the only non-diesel engine available, mainly still sold in countries where the diesel models weren't marketed at all. Most noticeably the style of lighting was once again refreshed to take on board the latest fashion features and a multitude of other more minor changes accompanied it. Perhaps the most significant change, though, was saved for the badges on the bonnet and tailgate.

## First of A New Family

The bonnet now proclaimed 'Discovery' rather than 'Land Rover' and the tailgate did likewise because the '4' badge had disappeared. These seemingly minor changes, on the whole noticed only by Land Rover aficionados, actually were the start of something much bigger: in the next year or two, 'Discovery' would become a Land Rover family as well as a model in the Land Rover line-up, in much the same way as Range Rover. As Range Rover spawned its 'Sport', 'Evogue' and 'Velar' alternatives to the full-fat model, so 'Discovery Sport' would replace Freelander 2 and slot neatly into the Discovery family, the primary member of which would be the vehicle formerly known as Discovery 4.

Production eventually ended a few months before the September 2016 launch of the all new Discovery (often referred to - unofficially of course - as Discovery 5). So the era of L319 came to an end, after 11 years of production as Discovery 3, Discovery 4 and, latterly, just Discovery.

# VEHICLE IDENTIFICATION

## VEHICLE PRODUCTION SUMMARY

### 2010 Model Year

Discovery 4/LR4 production begins in mid-2009, while its public debut takes place in April at the 2009 New York Auto Show. Four engine options are available: the 2.7 litre V6 'Lion' diesel carried over from Discovery 3, the new 3.0 litre development of the V6 diesel, the 4.0 litre 'Cologne' V6 petrol (again, carried over from the Discovery 3 but now only available as a special order and then mainly in Europe only) and the new 5.0 litre version of the Jaguar Land Rover normally aspirated V8 petrol. All are mated to a 6 speed automatic transmission, except for the 2.7 litre V6 diesel where the Discovery 3's manual gearbox is still an option.

All diesels, whether 2.7 or 3.0 litre, are badged 'TDV6'. The model name chosen is 'Discovery 4' for most markets, though North America continues to differ by calling the car 'LR4' (their Discovery 3 had been 'LR3').

As with Discovery 3, the choice of coil springs rather than air suspension is available but fewer and fewer coil spring Discovery 4s will be asked for as time goes by. The Discovery 4 body styling extends the mild facelift (body colour mouldings and restyled lights) of the 2009 model year Discovery 3 by adding a new grille, further restyled lights and a further reprofiled front bumper. The interior continues the Discovery's move upmarket with plushier trim and more technological features. Alongside mainstream models, armoured and commercial variants are made available soon after the Discovery 4 launch.

### 2011 Model Year

The 2.7 litre V6 diesel engine is dropped (joining the 4.0 litre V6 petrol that had faded away during 2010) in favour of a choice of two stages of tune with the 3.0 litre V6 diesel; the higher tune engine continues but with new 'SDV6' badging while the new, lower tune version becomes the 'TDV6'. The V8 petrol continues with minimal alterations.

### 2012 Model Year

The SDV6 3.0 litre diesel is further uprated and henceforth comes in most instances with an 8 speed automatic transmission. Further changes across the Discovery 4 range are limited to minor trim enhancements. Legislation in many markets makes daytime running lights, previously optional, into a standard feature. Land Rover cashes in on fashion by making the Discovery 4's daytime running lights into easily recognised 'signature lamps'.

### 2013 Model Year

Mildly revised exterior features and styling are accompanied by a more markedly updated interior and further refinements including increased technological aids and improved in-car entertainment systems.

### 2014 Model Year

The 8 speed automatic transmission becomes standard across the range. In some markets a new single speed transfer box is now specified instead of the traditional 'high/low range' two speed.

The big 5.0 litre V8 is replaced in petrol-biased markets by a new 3.0 litre supercharged V6 developed in large part from its V8 cousin.

Discovery 4s from 2014 onwards drop the '4' moniker and receive 'Discovery' letters across the bonnet in place of the previous 'Land Rover'; Discovery is now promoted by the marketing people as a family of vehicles (in preparation for the later launch of the Freelander 2-replacing Discovery Sport). New style head and tail lights are other cues of 2014 model year cars, as is the move of the indicator side repeater lamps from the door skins to the door mirrors.

### 2015 Model Year

Minor trim and colour changes mark the 2015 model year. Production finally ends in 2016 in preparation for the launch of the new Discovery (unofficially known as 'Discovery 5'), which takes place in September 2016, followed by sales and the first deliveries beginning in early 2017.

To ensure the parts that you order are correct for your Discovery 4, you will need to know most importantly the VIN (vehicle Identification Number). Engine number, gearbox, overdrive and axle numbers are mostly not required.

### VIN (Vehicle Identification Number)

The last six characters of the VIN are the serial number of your car. However, the VIN also provides you with considerably more useful information, most importantly the model year of your car (most changes in production relate to model years). It will also tell you the original factory specification of your car. The complete VIN can be broken down thus:

#### UK, EUROPE & REST OF WORLD MODELS (NOT USA, CANADA, MEXICO OR CHINA)

- 1st, 2nd & 3rd characters - SAL = Jaguar Land Rover  
4th Character (marque) - L = Land Rover  
5th Character (model) - A = Discovery 4  
6th Character (class) - A = Standard  
J = Japan  
7th Character (body style) - A = 5 door station wagon  
D = 2 Seat Commercial  
E = 5 Seat Commercial  
K = armoured body  
1 = 2.7L V6 diesel without DPF  
4 = 4.0L Cologne V6 petrol  
6 = 2.7L V6 diesel with DPF  
D = 5.0L normally aspirated AJV8 petrol  
F = 3.0L V6 diesel high power without DPF  
G = 3.0L V6 diesel high power with DPF  
M = 3.0L V6 diesel low power with DPF  
N = 3.0L V6 diesel low power without DPF  
V = 3.0L supercharged V6 petrol  
9th Char. (steering & g/box) - 3 = RHD 6 speed automatic  
4 = LHD 6 speed automatic  
5 = RHD 8 speed automatic  
6 = LHD 8 speed automatic  
7 = RHD manual  
8 = LHD manual  
10th Character (model year) - A = 2010 model year  
B = 2011 model year  
C = 2012 model year  
D = 2013 model year  
E = 2014 model year  
F = 2015 model year  
G = 2016 model year  
11th Character (mfg. plant) - A = Solihull, UK  
12th to 17th Characters - 999999 = serial number

#### Example:

A vehicle showing SALLAAAG5FA123456 is -  
Jaguar Land Rover, Land Rover, Discovery 4, Standard (not Japan), 5 Door Station Wagon, 3.0L V6 Diesel With DPF, RHD 8 Speed Automatic, 2015 Model Year, Solihull Plant, serial no. 123456.

#### USA, CANADA, MEXICO AND CHINA ONLY

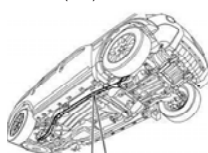

- 1st, 2nd & 3rd characters - SAL = Jaguar Land Rover  
4th Character (model) - A = LR4/Discovery 4  
5th Character (class) - A = Base line Discovery 4  
B = Base line LR4, 5 seat  
Discovery 4 S, 5 seat  
C = Base line LR4, 7 seat  
Discovery 4 S, 7 seat  
D = LR4/Discovery 4 SE, 5 seat  
E = LR4/Discovery 4 SE, 7 seat  
F = LR4/Discovery 4 HSE, 5 seat  
G = LR4/Discovery 4 HSE, 7 seat  
H = LR4/Discovery 4 HSE with luxury pack, 5 seat  
K = LR4/Discovery 4 HSE with luxury pack, 7 seat  
L = LR4/Discovery 4 HSE Plus, 5 seat  
M = LR4/Discovery 4 HSE Plus, 7 seat  
N = Base line China  
2 = 4 door station wagon  
6th character (body style) - 1 = 2.7L V6 diesel (China)  
4 = 4.0L Cologne V6 petrol  
D = 5.0L normally aspirated AJV8 petrol  
F = 3.0L V6 diesel (China)  
V = 3.0L supercharged V6 petrol  
7th Character (engine) - 4 = LHD 6 speed automatic  
6 = LHD 8 speed automatic  
0-9 = derived by calculation  
9th Char. (check digit) - A = 2010 model year  
B = 2011 model year  
C = 2012 model year  
D = 2013 model year  
E = 2014 model year  
F = 2015 model year  
G = 2016 model year  
10th Character (model year) - A = Solihull, UK  
11th Character (mfg. plant) - 999999 = serial number  
12th to 17th Characters -

#### Example:

A vehicle showing SALAK2D40CA123456 is -  
Jaguar Land Rover, LR4/Discovery 4, HSE with luxury pack and 7 seats, 4 door station wagon, 5.0L normally aspirated AJV8 petrol, LHD 6 speed automatic, 2012 model year, Solihull plant, serial no. 123456.

## VEHICLE IDENTIFICATION NUMBER (VIN) & MAJOR UNIT SERIAL NUMBERS

The following illustrations show where the vehicle identification number (VIN) is located on the Discovery 4:

- Stamped on the front of the RH front suspension turret.
- At the bottom of the windscreen glass on the LH side of the vehicle, visible from the outside.
- (UK, Europe and Rest of World) On a plate attached to the LH inner wing, forward of the suspension turret.
- (USA, Canada & Mexico only) On the tyre data and specification label attached to the front of the LH B post.

## Engine Number, Gearbox Number, Transfer Box Number, Front & Rear Axle Numbers

In contrast to earlier models, the major unit serial numbers on Discovery 4s have little significance when determining what parts to order or use. Most powertrain and all drivetrain change points on these vehicles are documented by VIN only in Land Rover parts catalogues.

## YOUR VEHICLE DETAILS

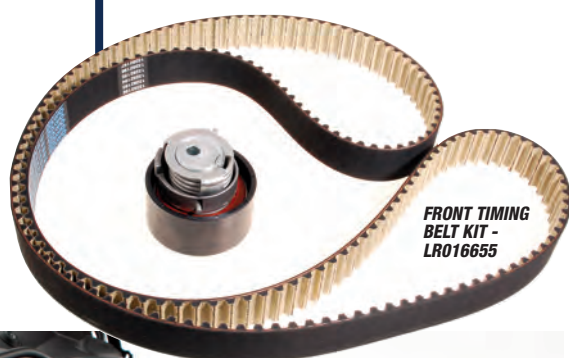

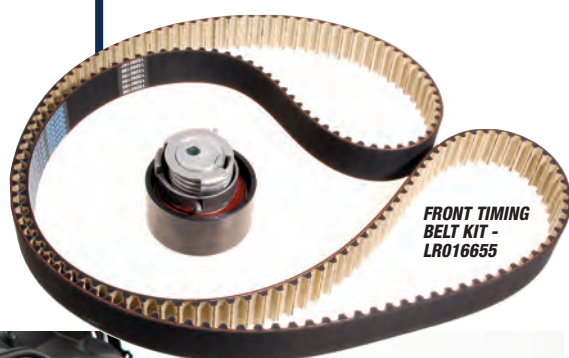

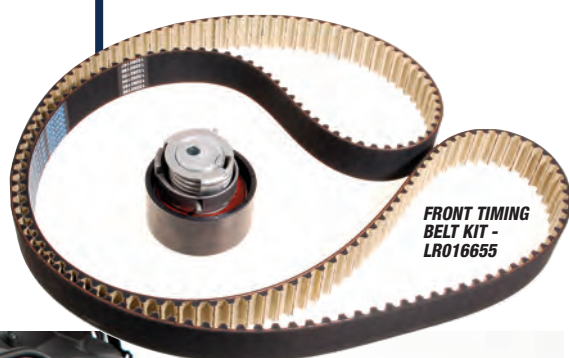

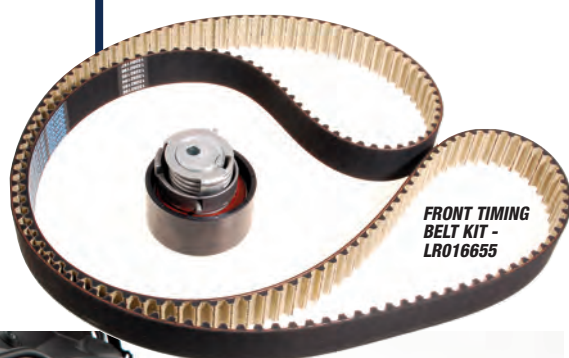

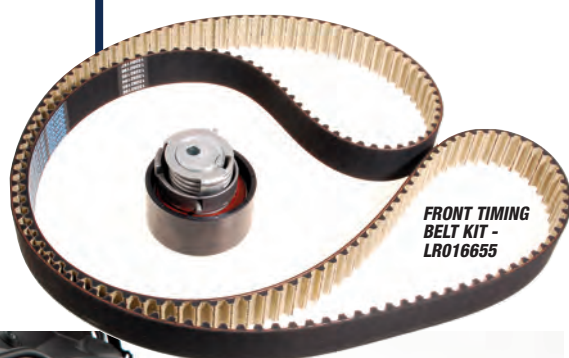

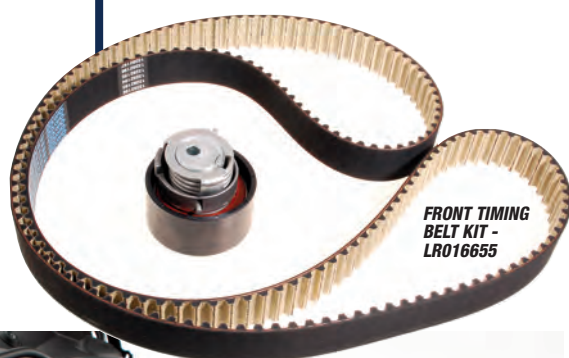

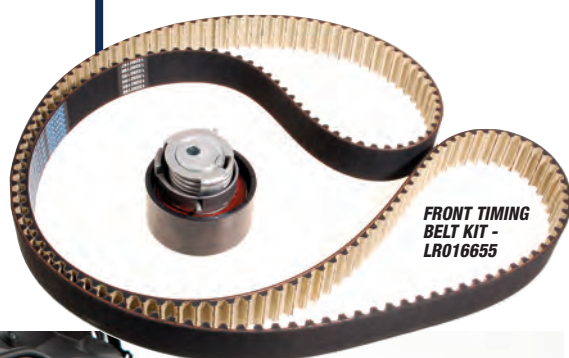

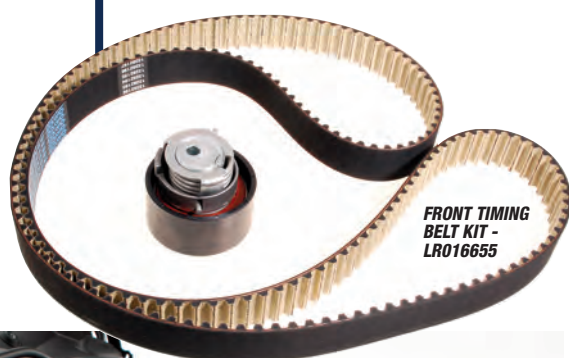

Enter your vehicle details here for easy reference  
Required for parts purchasing

Vehicle Identification Number (VIN):

### IMPORTANT NOTE

Wherever identification/serial numbers are quoted in this catalogue to help you distinguish change points between the fitment of different components, they relate to the Original Factory Specification or Component when the vehicle was new, and not to subsequent miscellaneous replacements.

IDLER PULLEY ONLY, primary belt	1	<b>LR106769</b>
PULLEY:		
crankshaft	1	<b>LR012000</b>
fan, secondary belt	1	<b>LR012624</b>
BRACKET & BOSS, secondary belt	1	<b>LR035555</b>
<i>Includes boss for secondary belt fan drive pulley and idler pulley for primary belt.</i>		
IDLER PULLEY ONLY, primary belt	1	<b>LR039516</b>
<i>Fits on back of secondary belt bracket and boss.</i>		

## 3.0L SUPERCHARGED V6 PETROL MODELS

### DRIVE BELT:

primary	1	<b>LR051263</b>
secondary	1	<b>LR011327</b>
TENSIONER ASS'Y, primary belt	1	<b>LR071035</b>
<i>This is the latest version of this tensioner and must be fitted using an FC110136 bolt (included with tensioner assembly).</i>		
BOLT, primary belt tensioner	1	<b>FC110136</b>
<i>Must be used when fitting the latest version of the primary belt tensioner.</i>		
IDLER & BRACKET, primary belt:		
up to (VIN) EA999999	1	<b>LR088321</b>
from (VIN) FA000001 on	1	<b>LR099573</b>
IDLER PULLEY ONLY, primary belt	1	<b>LR106769</b>
PULLEY:		
crankshaft	1	<b>LR107656</b>
fan, secondary belt	1	<b>LR011325</b>
supercharger, secondary belt	1	<b>LR035545</b>
BRACKET & BOSS, secondary belt	1	<b>LR035556</b>
<i>Includes boss for secondary belt fan drive pulley, tensioner for secondary belt and idler pulley for primary belt.</i>		
IDLER PULLEY ONLY, primary belt	1	<b>LR039516</b>
<i>Fits on back of secondary belt bracket and boss.</i>		
TENSIONER ASS'Y, secondary belt	1	<b>LR039517</b>
<i>Fits on side of secondary belt bracket and boss.</i>		

## Ignition Coils & Leads

### 4.0L COLOGNE V6 PETROL MODELS

#### IGNITION COIL, plug top:

aftermarket	6	<b>LR002427P</b>
Land Rover	6	<b>LR002427</b>
CAPACITOR, ignition suppression	1	<b>LR025249</b>
IGNITION LEAD, coil to spark plug:		
aftermarket	6	<b>LR020229P</b>
Land Rover	6	<b>LR020229</b>

### 5.0L N/A AJV8 PETROL MODELS

#### IGNITION COIL, plug top:

aftermarket	8	<b>LR010687P</b>

	DESCRIPTION	QTY REQ.	PART No.	DESCRIPTION	QTY REQ.	PART No.	DESCRIPTION	QTY REQ.	PART No.																																	
Service Kits	<h2>AIR COMPRESSOR ASSEMBLIES</h2> <p><b>important note:</b> There are three different designs of compressor assembly, Hitachi, early type AMK and late type AMK. Originally Discovery 4s were fitted with these three designs of compressor in the following order (listed by VIN):</p> <table><tr><td>AA000001 to BA589827</td><td>Hitachi</td></tr><tr><td>BA589828 to CA599999</td><td>Early AMK</td></tr><tr><td>CA600000 to CA603539</td><td>Late AMK</td></tr><tr><td>CA603540 to CA639077</td><td>Hitachi</td></tr><tr><td>CA639078 onwards</td><td>Late AMK</td></tr></table> <p>For some years the Hitachi compressor was not available as a spare part; Land Rover's official policy was (and still is) to offer one of the AMK compressors to replace the Hitachi unit and modify the car to fit it.</p> <p>It therefore follows that if at some point in its history a Discovery 4 that originally sported an Hitachi compressor has required a new one, it may have been fitted with the early type AMK unit or possibly the late type AMK unit and this will have involved some modifications to the vehicle that mean it can no longer easily accept an Hitachi compressor.</p> <p>More recently, an Hitachi-type compressor has been reintroduced to the market, manufactured by Dunlop. This has once again made possible the like-for-like replacement of an air compressor, so long as the old unit on your vehicle is of the Hitachi type and the vehicle has not been modified to accept an AMK unit.</p> <p><b>To order a compressor or replacement parts, you must first identify the type of compressor on your car.</b> The most recognisable features of the Hitachi unit are a hexagonal end cover on the air dryer mounted alongside the compressor and a 'D' shaped cradle holding the whole assembly to the car through upper and lower rubber mountings.</p> <p>AMK compressors have a round end cover on the dryer and mount to the car by a large plate angle bracket. The visual difference between early and late AMK compressors is subtle: the early type features an upward-angled air inlet tube with a push-fit hose connection, while the later type has a horizontal screw union to the inlet hose.</p> <p><b>If the air compressor assembly requires replacement:</b></p> <p>Because of the reintroduction of the Hitachi type unit (now manufactured by Dunlop), a like-for-like replacement with no required vehicle modifications can be made if the old unit on your car is still of the Hitachi type.</p> <p>If however your vehicle has at some point in its life been modified to take an AMK compressor, then you should fit an AMK type compressor as a replacement: re-engineering and re-programming your car back to accept an Hitachi type compressor would be time-consuming and expensive.</p> <p>As stated above, the official Land Rover policy on compressor replacement is still to modify the vehicle to accept a later AMK compressor. If you decide to follow this route, some adaptation or replacement of hoses will be required if an Hitachi or early type AMK compressor is being replaced. Additionally the compressor relay will require replacement with a YWB500220 relay and, when replacing an Hitachi unit, the upper and lower compressor covers will need to be changed for the AMK type as well. Finally the electronic control unit for the air suspension will require installation of new software via the vehicle's diagnostic system.</p> <p>Full details of the conversion work required to fit a late type AMK compressor to an Hitachi-equipped Discovery 4 are given in Land Rover Technical Bulletin LTB00420, available on request from Rimmer Bros.</p>									AA000001 to BA589827	Hitachi	BA589828 to CA599999	Early AMK	CA600000 to CA603539	Late AMK	CA603540 to CA639077	Hitachi	CA639078 onwards	Late AMK

## Air Suspension Valves, Reservoir & Pipes

VALVE ASSEMBLY:			
Includes grommets and union adaptors.			
reservoir (incl. pressure sensor)	1	RVH000046	
front axle	1	RVH000095	
rear axle	1	RVH000055	
SENSOR, pressure	1	LR084274	
Included in reservoir valve.			
RESERVOIR ASSEMBLY:			
up to (VIN) EA999999	1	RQN500070	
from (VIN) FA000001 on			
no head impact crash criteria	1	RQN500070	
with head impact crash criteria	1	LR062330	
GROMMET, valve mounting	9	KVV500040	
Included in valve assemblies.			
ADAPTOR, union	11	LR044836	
Included in valve assemblies and reservoir assembly.			

## Air Suspension Height Sensors & Control Unit

SENSOR, air suspension height, with link:			
Front	2	LR023646	
Rear	2	LR023648	
CONTROL UNIT, air suspension	1	LR014323	
CLIP, control unit attachment	2	RYC500010	

## Steering Rack Assembly

### STEERING RACK ASSEMBLY:

Includes gaiters. Does not include track rod ends.

RHD, new, exchange	1	LR032373
LHD, new, exchange	1	LR032374
SCREW, steering rack mounting	2	FC114136
NUT, locking, steering rack mounting	2	LR017002

## Steering Rack Components

### GAITER KIT, steering rack

Includes 1 gaiter and 2 clips.

aftermarket	2	QFW500010P
OEM	2	QFW500010P1
Land Rover	2	QFW500010
CLIP, large dia., steering rack gaiter	2	LR032371

### TRACK ROD END (ball joint):

Includes knuckle nut.

OEM	2	LR010672P1
Land Rover	2	LR010672

### NUT:

locking track rod end to track rod	2	LR010520
track rod end to knuckle	2	QYH500160

### TRACK ROD COMPLETE ASSEMBLY:

Includes track rod, gaiter, track rod end and nuts.

### DIFFERENTIAL OVERHAUL KIT:

models without locking diff.	1	RD1377BP
<i>Includes 6 bearings &amp; 3 oil seals for rear differential.</i>		
models with locking diff.	1	RD1377BPLOC
<i>Includes 5 bearings &amp; 3 oil seals for rear differential.</i>		
DIFFERENTIAL LOCKING MOTOR ASS'Y:		
<i>Models with rear axle locking. Includes O ring and motor fixings.</i>		
complete assembly with housing		
reconditioned, exchange	1	LR011036
motor without housing		
new, exchange	1	LR032711
PLUG:		
oil filler	1	TYB500060
oil drain	1	TYB500110
OIL SEAL:		
input flange	1	TZB500100
drive shaft		
OEM	2	TZB500050P1
Land Rover	2	TZB500050
BUSH, differential mounting:		
front	1	KQB000133
rear	2	LR017424
CONTROL UNIT, locking differential:		
<i>Models with rear axle locking.</i>		
up to (VIN) CA999999	1	LR083860
(VIN) DA000001 to DA999999	1	LR034525
(VIN) EA000001 on	1	LR083860
SENSOR, differential temperature	1	NSC500590
<i>Models with rear axle locking.</i>		
VIBRATION DAMPER MASS	1	LR016594
<i>All diesel models up to (VIN) AA518890.</i>		

## Rear Drive Shaft

**Important note:** All drive shafts and CV joints now offered are the later type featuring a 2mm pitch on the thread for the hub nut. Cars up to (VIN) DA671699 were all built with drive shafts and CV joints featuring a 1.5mm pitch thread. If ordering a new drive shaft or CV joint for a vehicle up to (VIN) DA671699 with original (1.5mm pitch thread) drive shafts you will also require a new 2mm pitch thread hub nut - see rear hubs area of listing for part number.

### DRIVE SHAFT COMPLETE ASSEMBLY:

*Includes C.V. joint.*

## Rear Hubs

### REAR KNUCKLE:

*Includes upper and lower bushes.*

RH	1	LR045824
LH	1	LR045825
BUSH, rear knuckle:		
upper		
aftermarket	2	RHF500100P
OEM	2	RHF500100P1
Land Rover	2	RHF500100
lower		
aftermarket	2	LR032644P
Land Rover	2	LR032644
CIRCLIP, lower bush to knuckle	2	RYV000010
REAR HUB ASSEMBLY:		
<i>Does not include hub bearing.</i>		
aftermarket	2	RUC500120P
Land Rover	2	RUC500120
BEARING KIT, hub:		
<i>Includes bearing, circlip and hub nut for one hub.</i>		
aftermarket	2	LR045917P
OEM	2	LR045917P1
Land Rover	2	LR045917
CIRCLIP, hub bearing	2	RLG000010
NUT, rear hub to C.V. joint:		
with 1.5mm thread pitch		
<i>Vehicles with original drive shafts and CV joints up to (VIN) DA671699.</i>		
aftermarket	2	RFD500020P
Land Rover	2	RFD500020
with 2mm thread pitch		
<i>Vehicles from (VIN) DA671700 on plus all replacement drive shafts and CV joints.</i>		
aftermarket	2	LR024151P
Land Rover	2	LR024151

### CIRCLIP (SNAP RING), drive shaft:

inner end	2	TDL500040
outer end		
without rear axle locking	2	TDL500060
with rear axle locking	2	TDL500070

## Thermostats

### 2.7L V6 DIESEL MODELS

COOLING SYSTEM THERMOSTAT:  
*In-line type. Also included in top & bottom hose assembly.*

OEM	1	LR009562P1
Land Rover	1	LR009562

COOLING SYSTEM  
THERMOSTAT -  
LR009562

### 3.0L V6 DIESEL MODELS

COOLING SYSTEM THERMOSTAT 1 **LR033675**  
*In-line type. Also included in top & bottom hose assembly.*

### 4.0L COLOGNE V6 PETROL MODELS

COOLING SYSTEM THERMOSTAT 1 -  
*In-line type. Only available by purchasing top & bottom hose assembly.*

### 5.0L N/A AJV8 PETROL MODELS

COOLING SYSTEM THERMOSTAT:  
*In-line, with housing.*

OEM	1	LR032135P1
Land Rover	1	LR032135

### 3.0L SUPERCHARGED V6 PETROL MODELS

COOLING SYSTEM THERMOSTAT:  
*In-line, with housing.*

up to (VIN) EA999999	1	LR035124P
aftermarket	1	LR035124
Land Rover	1	LR107288
from (VIN) FA000001 on	1	

## Water Pumps

### 2.7L V6 DIESEL MODELS

WATER PUMP:  
aftermarket 1 **LR009324P**  
OEM 1 **LR009324P1**  
Land Rover 1 **LR009324**

GASKET, water pump 1 **1316117**  
*Included in water pump assembly.*

PULLEY, water pump 1 **1311327**  
*Not included in water pump assembly.*

### 3.0L V6 DIESEL MODELS

WATER PUMP:  
all except Gen2 twin turbo  
aftermarket 1 **LR013164P**  
OEM 1 **LR013164P1**  
Land Rover 1 **LR013164**  
Gen2 twin turbo only 1 **LR089625**

GASKET, water pump:  
*Included in water pump assembly.*  
all except Gen2 twin turbo 1 **1316117**  
Gen2 twin turbo only 1 **LR079619**

PULLEY, water pump:  
*Not included in water pump assembly.*  
all except Gen2 twin turbo 1 **1311327**  
Gen2 twin turbo only 1 **LR071880**

### 4.0L COLOGNE V6 PETROL MODELS

WATER PUMP:  
with gasket  
OEM 1 **LR027547P1**  
Land Rover 1 **LR027547**  
without gasket  
aftermarket 1 **LR026093P**  
Land Rover 1 **LR026093**

GASKET, water pump 1 **1106473**  
*Included in water pump assembly.*

PULLEY, water pump 1 **PQR500021**  
*Not included in water pump assembly.*

### 5.0L N/A AJV8 PETROL MODELS

WATER PUMP ASSEMBLY, main:  
*Includes pulley.*  
aftermarket 1 **LR097165P**  
Land Rover 1 **LR097165**

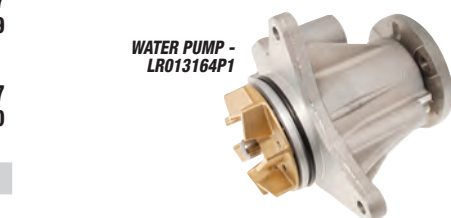

GASKET, water pump to engine:  
aftermarket 1 **LR049370P**  
Land Rover 1 **LR049370**

WATER PUMP OUTLET TUBE:  
*Includes seal.*  
aftermarket 1 **LR028136P**  
Land Rover 1 **LR028136**

SEAL, water pump outlet tube 1 **LR030593**

WATER PUMP -  
LR009324P

# Touch Up Paint

Confirming the correct paint colour name for your car may be done by reading the paint name on the VIN plate, under the bonnet. Touch up pencils and aerosols for all of the standard paint colours are listed here, together with the Land Rover three digit codes for each colour (car body repair workshops know and match your car's colour by this code).

For reference purposes the Land Rover/MG Rover standard three letter codes are also shown; you will see these letter codes used as suffixes on the part numbers of colour coded spare parts. For example, some of the touch up paint part numbers on this page use them - a paint pencil in Rimini Red is VEP501730CBK, where VEP501730 is a paint pencil and CBK is Rimini Red.

Each standard colour paint touch up kit includes both base colour and top coat lacquer, in either pencils or aerosol cans. Lastly, just to say Land Rover classify Adriatic Blue as being in the Grey family. That's where you'll find it on this page, rather than with the Blues - it's not an error!

BLACKS			
TOUCH UP PAINT KIT:			
Sumatra Black (797/PBF)			
pencil	A/R	LR005734	
aerosol	A/R	LR005713	
Santorini Black (820/PAB)
