THE RIMMER BROS SERVICE

**WE HAVE THE
PARTS**

**WE GUARANTEE
THE QUALITY**

**WE'RE KEEN
ON PRICE**

**WE DELIVER
FAST**

**WE KNOW YOUR
CAR**

**This Catalogue lists out
(in model order) popular parts for
MG Rover,
Mini, Midget/AH Sprite and
Rover P5 & P6.**

GENUINE MG ROVER PARTS

We stock a vast range of genuine MG Rover parts in addition to those listed here. This Quick Finder is intended as a summary listing only for the most popular parts for each model.

The full range of products we offer, some 600,000 individual part numbers, can only be found on-line in our Electronic Parts Catalogue, where we have line drawn parts diagrams, model range information, photographs, fitting instructions and live stock availability.

Our website also features news, new products, shopping by brand and clearance lines at bargain prices.

**EASY TO USE ON LINE
ORDERING WITH
PARTS DIAGRAMS &
PHOTOGRAPHS**

THE CARS WE SPECIALISE IN

As well as caring for MG Rover & Mini, we also supply parts for Range Rover, Defender, Discovery 1-5, Sport, Evoque, Freelander 1 & 2, 90/110 & Land Rover 'Series' vehicles. Additionally, we also supply parts for Triumph TR2-8, Herald,

Vitesse, Stag, GT6, 2000/2500/2.5Pi, Dolomite, Rover SD1, Rover MGB, MGF & MG TF.

In addition we are developing a range of fast moving parts for Jaguar 1996 on models. Please refer to inside rear cover.

Lincoln LN4 2NA, England

COLLECT IN PERSON

Our sales counter is open 8.30am-5.30pm

Monday-Friday and 8.30am-1pm Saturday.

We also offer a 'click and collect' service to save you time.

PAYMENT

We accept all major credit, debit and charge cards and also Paypal on orders where all items are in stock. Orders can also be pre-paid by bank transfer (in GBP/Euro/US Dollar- see website or Price Guide for details) or cheque (in GBP-please allow a few extra days for clearance). If you send cash or Rimmer Bros Vouchers, please use registered mail, as we cannot accept responsibility for any loss.

PRICING

There are no prices in this catalogue. Use it to select the parts you need, then check the cost by referring to our website or the separate Price Guide or DVD. Our website gives up-to-the minute information regarding availability and the price of any item.

All orders will be invoiced and charged in GBP. All goods are sold subject to the price ruling at the time of invoicing.

VAT

For details on VAT & VAT exempt sales, please refer to our website.

THE MG ROVER PARTS SPECIALIST

PART NUMBERS & IDENTIFICATION

We identify parts so that you know what you are buying. When there are alternatives to the original MG Rover part, we use a simple numbering system so that you can select the part that best suits your needs and budget. This avoids any confusion when comparing quality and price:

- **Genuine (MG Rover) part** – will have a plain number
- **OEM (original equipment manufacturer) part** – will have a P1 suffix
- **Aftermarket (reproduction) part** – will have a P suffix

In addition, there is also equivalence with certain Rover/Triumph numbers or when we use our own part number where no original part number exists.

QUOTATIONS, BACK ORDERS & SPECIAL ORDERS

Quotations

If you require a written quotation for the part(s) and/or delivery charge(s) before ordering, please contact us.

Back Orders

Back-ordered parts are not charged for until despatch. Upon despatch we will charge the price (in GBP) quoted at the time of ordering. Prices will be unaffected by any subsequent price alterations unless advised in writing to you. Please notify us in writing (letter, fax or email) if you wish to cancel any back ordered items. Back orders are automatically cancelled after 3 months. Back ordered parts will be sent carriage free (some exclusions apply for export overseas). If you would prefer that your order is sent complete, please request this at the time of ordering.

Special Orders

Certain items (coloured trim, carpets, one-off type parts, etc) are sometimes only available by special order. This means we have to order them for you specially from the manufacturer. For this reason, we require a 20% non-refundable deposit upon taking your order. The balance is payable when the goods are despatched. Please note that special order items can take several weeks to be supplied and are non returnable.

VEHICLE DISPLAY AT OUR SHOWROOM

DESPATCH AREA

SHIPPING

At Rimmer Bros, we opt to use the best carriers in the business to ensure your order is delivered safely, securely and on time. The shipping method and cost is based upon what you order, where you want the parts sending and how quickly you want them.

Orders are despatched as soon as practically possible. If your parts are required urgently and you want an express delivery service, please tell us.

For shipping methods and guide prices, (including packaging and handling), please refer to our website.

Shipping charges for export of oversize parcels outside the UK may need to be quoted once the order is picked and packed.

Once your order is shipped and providing we have your email address, we will email confirmation to you, including tracking information if applicable.

Delivery times will be dependent on location and delivery method selected.

Please note that certain 'hazardous' products, such as aerosols, paints, fluids and chemicals cannot be sent via post or by air freight.

RETURNS & EXCHANGE OLD UNITS

Please refer to our website for full details.

Returns

All returns must be pre-authorised with a returns authorisation (RA) number. Returned products without an RA number will be subject to delay and possible return to sender. All returns are subject to a physical inspection. **We must have received and inspected the product before an exchange or credit can be issued.**

WARRANTY & LEGAL INFO

Please refer to our website for full details.

Parts Warranty

All new and reconditioned parts are covered by a 12 month manufacturer's warranty unless specifically stated. You should notify us immediately if a potential warranty situation arises. We will then advise a course of action. Any suspected faulty part must be returned to us together with the original invoice or proof of purchase and with as much information relating to the problem as possible. **Please note that a defective part must be returned and received by us before it can be exchanged.** All warranty parts are subject to a physical inspection. This may involve returning the part to our supplier to verify the fault before it can be exchanged.

Legal Info

Errors & Omissions Excepted. Please tell us if you think something is wrong in our catalogue. All parts offered subject to availability. All part numbers, illustrations and photographs used are intended for reference and identification purposes only and are not necessarily an exact representation of the goods supplied. Photographs of parts should be considered indicative of what we supply rather than an exact representation as sources of supply and manufacture can change. Whilst we make every effort to ensure the accuracy of product descriptions, illustrations and photographs, they are based upon information supplied by the manufacturer or distributor at the time. There may be occasions - due to circumstances beyond our control - when specifications are changed, or when goods become temporarily unavailable. Certain part numbers may have been superseded to an alternative number when a later version or updated specification is offered.

TOTAL PROTECTION!

The Galactic premium outdoor car cover is manufactured from heavy duty polyester with a superior satin finish. The resultant material has a very high tear strength combined with excellent water repellency and UV protection. This is enhanced by a waterproof membrane and heat sealed seams. The excellent waterproofing and breathability of the outer shell is combined with a soft moisture resistant fleece lining to provide the ultimate protection.

The Eclipse outdoor car cover is made from polypropylene with a breathable membrane. The four-layer construction consists of two non-woven top layers which gives good UV protection and water repellency. The third layer is a breathable/waterproof film, and the fourth is a non-woven soft inner lining for scratch resistance.

LUBRICANTS & FLUIDS

Engine Oil

Carlupe Synthetic engine oils prevent the formation of engine sludge and deposits. Sludge build up can cause oil starvation, increased engine wear and can negatively affect fuel economy, performance and engine life. Carlupe aims to keep your vehicle's key components cool, clean, lubricated and working at their optimum.

5w-30 Fully Synthetic Oil

Miscellaneous Oils & Fluids

Automatic & Manual Transmission Fluid

An Automatic transmission fluid equivalent to Esso EZL799 specifically for use in the CVT and EM-CVT gearbox.

Suitable for use in the following models:
Rover 114 1.4 engine
Rover 216 1.6 engine
Rover Coupe, Cabriolet, Tourer 1.6 engine
Rover 25 1.6/1.8 engine
Rover 45 1.8 engine
MGF/MG TF/MG ZR/MG ZS

EZL999 Automatic Transmission Fluid

Automatic models, refer to Handbook
1 Litre - MG Rover

XPT0020020F

For use in R65 Gearbox Rover 211, 214, 216, 414, 416, 620ti, 620D, 820, 825, Coupe, Cabriolet, Tourer, 25, 45 MG ZR

BV75W-80 Manual Gearbox Oil

Manual models, refer to Handbook
1 Litre

VYK000081

An Automatic transmission fluid specifically for use in the JF 403E 4 speed and JF506E 5 speed electronically controlled automatic gearbox.

Suitable for use in the following models:
Rover 825 2.5 engine
Rover 45 2.0 (KV6) engine
Rover 75 1.8, 2.0, 2.5 and 2.0 Diesel engine
MGZT & ZT-T 2.5 180PS

JF403E Automatic Transmission Fluid

Automatic models, refer to Handbook
5 Litres - MG Rover

VYK000040

MTF-94 is a special gearbox oil suitable for use in manual gearboxes of Rover and MG Vehicles using 1.8i or larger engines built since 1995 and in All models of MGF and TF. It can also be used in certain older Rover model gearboxes, which originally specified Engine oil, fill.

For use in PG1 and R380 gearbox Rover 218, 220D, 220Vi, 420, 420D, 620ti, 620D, 820, 825, Coupe, Cabriolet, Tourer, 25, 45, 75, Streetwise, MG F, MG TF, MG ZR, MG ZS, MG ZT, MG ZT-T

MTF 94 Manual Gearbox Oil

Manual models, refer to Handbook
1 Litre

Brake & Clutch Fluid

Universal DOT 4 Brake & Clutch Fluid

All models - 4.54 Litres (1 gallon)

S3SHE5

Unlike standard, glycol based, clutch/brake fluid, Automec DOT 5 - silicone fluid is non - hygroscopic which means it does not absorb moisture. This will help prevent corrosion in the system and, under heavy braking conditions, it tends not to boil. Also, it won't harm paintwork if spilt.

Silicone DOT 5 Brake & Clutch Fluid

All models
500ml
1 Litre

Shipping Restriction on Aerosols & Hazardous Fluids

Please note: Aerosols are classed as hazardous and that shipping restrictions apply. Aerosols can not be exported and can only be sent via carrier (not post) to UK mainland destinations. Touch-In pencils and aerosols are non-returnable.

LUBRICANTS & FLUIDS**Anti-Freeze & Coolants****Anti-Freeze**

The inclusion of a glycol based Anti-Freeze in winter helps prevent the engine coolant from freezing up and blowing a hose or radiator core (or worse!). However, it's not just during the winter that you need protection for your engine and radiator. Using anti-freeze during the summer improves the effectiveness of the coolant by helping to remove the heat from the block and dispersing it more efficiently, even in the worst traffic jam! It also protects from corrosion damage.

**Anti-Freeze**

Xpart	1 Litre	GAC2018X
-------	---------	----------

Anti-Freeze - Ethylene Glycol

CarPlan	5 Litre	GAC2019
---------	---------	---------

The Xpart OAT Anti-Freeze Concentrate has a 5 year life and is suitable for all year use as a coolant and anti-freeze. The silicate free, organic acid technology (OAT) provides superior engine protection and is compatible with all vehicle manufacturers' colours of OAT coolants.

- 5 Year Life
- Suitable for all year round - anti freeze / summer coolant
- Temperature range from +108C / -34C
- Suitable for most vehicles manufactured after 1998
- Silicate free, organic acid technology (OAT) for superior engine protection
- Compatible with all vehicle manufacturers' colours of OAT coolants
- Enhanced corrosion protection

* If in any doubt, always refer to manufacturers recommendations & handbooks.

**Xpart OAT 5 Anti-Freeze / Coolant**

5 Year Life - Orange	1 Litre	XP1LL
	5 Litre	XP5LL

Radiator Flush

- Cleans & Unblocks Cooling Systems
- Removes Rust & Sludge
- Cleans Water Channels
- Safe with Rubber Hoses
- Safe for all Vehicles

**Shipping Restriction****Radiator Flush**

All models - Silver Hook 350ml	S3SGA14
--------------------------------	---------

Cooling System Additive

Radiator relief allows your radiator to transfer heat more efficiently reducing your engines operating temperature (which is obviously controlled by the thermostat) by up to 30 degrees F. Fully compatible with water and anti-freeze and is safe with cast iron and all alloys.

- 30°F lower operating temperature
- 50% quicker warm up time
- Safe with water/antifreeze mixture
- Safe with cast iron, alloy engines and heads
- Increased engine life!
- 100% biodegradable, non corrosive, non toxic
- For use in all water cooled engines
- 30ml of additive treats 1 litre of coolant

**Shipping Restriction****Radiator Relief**

All models - 946ml	S3SGA14
--------------------	---------

**Evans Waterless Coolant****PREP FLUID****Absorbs Water**

Before filling your system with Evans Waterless Coolant it should be as free from water as possible.

Evans Prep Fluid hygroscopically absorbs any residual water remaining in the system after draining.

System Flush

Evans Prep Fluid actively removes the loose dirt and scale from your cooling system which can cause inefficient heat transfer.

CLASSIC COOL 180 & POWER COOL 180

No Overheating - Classic & Power Cool 180 has a boiling point of 180 deg C and will not boil over.

No Corrosion - Water contains oxygen, oxygen allows corrosion. Classic & Power Cool 180 eliminates corrosion.

No Pressure - Classic & Power Cool 180 allows your cooling system to run at a lower pressure, reducing the strain on engine components.

No Liner Pitting - Classic & Power Cool 180 generates significantly less pitting when compared with all water based coolants.

More BHP - Classic & Power Cool 180 eliminates premature detonation associated with overheating.

**Evans Prep Fluid**

2 Litre	RX16742L
5 Litre	RX1674

**Evans Classic Cool 180**

Formulated for use in cast iron/cast iron & alloy engines typically found in classic cars.

2 Litre	RX1672
5 Litre	RX1673

**Evans Power Cool 180**

Formulated for use in modern all alloy/performance engines.

Revive
Bring Your Engine Back to Life

Turbo Cleaner and Power Restorer Kit

Revive treatments are safe water based, non toxic, non corrosive and non flammable fluids, using technology developed and used for the cleaning and maintenance of aviation jet engines, power station turbines, large marine diesel engines and now automotive engines.

The treatment is sprayed into the vehicle's intake system before the turbo inlet whilst the engine is running. As the fluid passes through the engine, the active ingredients lock on to built up oily/carbon deposits and strips away surface layers. These tiny carbonised particles are no larger than the soot particles the engine naturally generates, making the process safe for vehicles fitted with catalysts and filters.

AVIATION TECHNOLOGY

The technology behind Revive treatments was developed for the aviation industry and power generation. It's used to clean aeroplane jet engines and keep power station turbines in top working condition.

ECO FRIENDLY

All Revive fluid is biodegradable, non toxic, safe to use and non flammable.

EASY TO USE

An engine treatment is so simple to perform, the fluid is sprayed into the inlet system pre-turbo, no need to remove or dismantle the turbo, just unclip the inlet trunking.

REPAIR WITH REVIVE

Revive is used to clean engine systems that already have problems caused by soot & oily build up. By performing three Revive cleaning doses on the vehicle, carbonised layers are removed gradually, making the engine cleaning process very safe.

RESTORES ECONOMY, POWER & EMISSIONS

Cleaning the turbo and other engine internals helps restore fuel economy, regains lost power and reduce exhaust emissions.

VARIABLE VANE TURBOS

Variable nozzle / vane technology can be a major cause of turbo problems due to sticking turbo vanes, cleaning with Revive helps remove soot & oil from the mechanism to restore normal movement.

Revive Turbo Cleaning Kit

Diesel Kit - 750ml
Petrol Kit - 750ml

REV9000
REV9400

Revive
Bring Your Engine Back to Life

Service Shot Preventative Treatment

PREVENT WITH SERVICE SHOT

Revive Service Shot is used to prevent the build up of soot in the engine system, it is a quick, simple one shot treatment that is used before each service.

Regular use of Service Shot helps maintain the health and operation of the engine, it prevents soot & oil build-up by removing deposits before it causes problems and is important to use on healthy engines, as well as engines that have previously been treated with a full Revive clean.

VARIABLE VANE TURBOS

Preventative treatment with Service Shot helps keep the Variable nozzle / vane components clear of soot that causes sticking and boost related issues, regular use at each service helps maintain normal movement and health.

Revive Service Shot

CATACLEAN
Liquid science for the life of your vehicle

- IMPROVES FUEL ECONOMY
- REDUCES EMISSIONS
- RESTORES PERFORMANCE
- PROTECTS & MAINTAINS CATALYTIC CONVERTER
- REDUCES RISK OF DIESEL PARTICULATE FILTER (DPF) CLOGGING

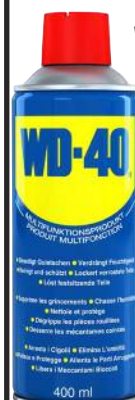

Cataclean is a fuel and exhaust system cleaner. Cataclean will remove the harmful carbon build-up in the valves, injectors, oxygen sensors, EGR valve, and catalytic convertor. Cataclean will also reduce the particulates in a DPF, preventing clogging. Cataclean can improve fuel economy, reduce emissions, restore performance and extend the life of engine/exhaust parts.

Rust Removers

Evapo-Rust

Easily remove rust without scrubbing or sanding. Quickly removes rust to bare metal. Evapo-Rust® Rust Remover is an environmentally safe water-based product that makes even deep rust effortlessly disappear.

Prevents rust forming on all ferrous metals. A professional product that is so easy to use, anyone can restore rusted tools, automotive parts.

- Non-corrosive
- Safe on skin
- No fumes or bad odours
- Non-flammable
- No VOC's
- Non-toxic
- Biodegradable
- Water soluble
- Requires no special equipment (gloves, protective eyewear)
- Will not harm unrusted steel
- Safe on other metals
- Will not affect plastic, PVC, Viton and most paints
- Just soak, rinse and re-use

5 Litre will remove 1/2 lb (227g) of dry rust.

Evapo-Rust

MWS Wheel Cleaning & Protection System

This specialist wheel cleaning system will help you care for your wheels.

Suitable for all Steel, Alloy and Wire wheels (including painted & chromed), this wheel cleaning system uses a unique 2-stage process that not only cleans, but gives wheels a superb lasting finish that helps to protect them, making them easier to care for and clean in the future.

Kit includes:

- Special cleaning solution (580ml).
- Wooden handled cleaning brush & dispenser.
- Finishing/protection solution (180ml)
- 2 pair of disposable gloves.

Cleaning solution breaks down brake dust & road grime. Brush & dispenser gets into all those awkward places.

Finishing/protection solution leaves wheels like new.

RX1405

Wonder Wheels Colour Active Super Wheel Cleaner

The Wonder Wheels Colour Active Super Wheel Cleaner 600ml is an acid-free wheel cleaner suitable for use on all wheel types, including those requiring extra special care such as chrome, unlacquered, split rims, anodised and damaged wheels.

It easily removes baked on brake dust, road grime, dirt, grease and oil quickly and effectively with no brushing required and minimal effort.

The technologically advanced cleaning process occurs with the aid of an active indicator which turns the wheel red as it reacts with and dissolves the dirt & brake dust.

The product can then be washed off after 5 minutes, and dirty, dull wheels will be transformed back to their original, sparkling, showroom shine.

- Suitable for use on all wheel types
- Removes baked on brake dust
- Removes road grime
- Removes dirt, grease and oil
- No brushing required

Wonder Wheels Colour Active

600ml

RX2116

Wheel Wax

The E-TECH wheel wax is a premium grade wheel surface sealer that molecularly bonds to the wheel surface to create an invisible barrier to prevent the build-up of harmful contaminants which can become embedded in the wheels surface like brake dust, winter salt, water and general road grit and grime.

Ideal for cleaning wheels and hard to reach places.

GENERAL ACCESSORIES

General Consumables

Thermo-Tec Exhaust Insulating

Thermo-Tec Insulating Wrap gives Safety with Performance.

Tubular manifolds by design produce a vast amount of heat in the engine compartment. This increases the possibility of electrical/ignition components not working effectively and promotes a higher risk of fire (if any combustible material comes in to contact with the manifold), not to mention the likelihood of severe burns when working on the engine!

By wrapping your tubular manifold with Thermo-Tec insulating wrap you can overcome all these risk factors. Thermo-Tec keeps the heat within the exhaust manifold so the exhaust gases have a much higher velocity, this induces negative pressure (scavenging) which increases air intake flow, resulting in better performance & economy.

Technical Notes: Thermo-Tec heat wrap - which is race & rally proven - comes in rolls 2" wide x 50 feet long and moulds to the contours of the manifold. Being a Silica based fabric (it does not contain asbestos or carcinogens) it is unaffected by oil or water, withstands temperatures up to 1000 degrees Celsius and reduces under bonnet temperatures by up to 70%.

We strongly recommend that you use Snap-Straps to retain the insulation. These are stainless steel straps with a narrow profile (for tight spots) that you cut to length and fasten with snap type heads. Alternatively you can skin your knuckles and use hose clips!

Also recommended is Hy-Cote paint. This preserves and protects the exhaust wrap after installation. Extra resins and binders seal the pores, toughen the surface and help extend the life of the wrap.

K&N Air Filter Oil

K&N Air Filter Oil is the only oil specially formulated to work in combination with the cotton fabric in K&N Filtercharger elements providing a superior air filtration system. When used as directed, it quickly penetrates the filter pleats where it remains suspended in the cotton fabric. Use to re-oil filter elements after cleaning.

**K&N Air Filter Oil**

K&N Air Filter Cleaner

K&N Air Filter Cleaner is the only cleaner recommended to clean K&N Air Filter elements. K&N Air Filter Cleaner works to dissolve dirt build up and old filter oil and can be washed away with water. It is environmentally friendly and safe on paint, chrome, cast aluminium, plastic, rubber and vinyl when used as directed (do not use on polished or anodized aluminium). Use to clean elements when servicing. Complete instructions on bottle.

**K&N Air Filter Cleaning Fluid**

RX1514

Cool Tape

Cool Tape consists of a 1mm aluminised material bonded to a lightweight, woven fibreglass with super strong adhesive backing. Reflects radiant heat.

Limitless application, but common uses include wrapping cables, hoses, fuel lines, spot heat retardation areas and sealing gaps in floors or firewalls.

The best product on the market! Flexible, strong and adhesive and thin for a tight wrap.

**Cool Tape**

- Electronic Smart Charger
- Suitable for charging 6 volt & 12 volt Wet & AGM batteries
- LCD Battery Level Indicator
- 5 Step Charging Program

4 Charging modes - Pulse charging/Soft start/Auto select current/Bulk charging
Complete with THREE sets of leads to enable you to have 2 vehicles with a permanent fly-lead, plus still having a set of Crocodile leads for floor or bench charging.
1 x insulated & fused crocodile clip/detachable & fused ring terminal fly leads (these can be left fixed to a vehicle to allow easy on-off fitting of the charger)
Multiple use (cars, motorcycles, vans, quad bikes, lawn mowers, golf buggies etc)
Full instruction manual included (including safety information). IP65 rated

Suitable for low maintenance and maintenance free 6v / 12v batteries of 1.2Ah - 120Ah capacity only.
Input: 230V AC 50Hz Input current: 0.6A. Output: 6V 0.8 - 4.0A. 12v 0.8 - 4ADC

CTEK Battery Charger/Conditioner 0.8 amp

New Generation Charging For Smaller Batteries

The XS 0.8 is CTEK's smallest 12V charger.

Offering state of the art technology is it perfect for charging smaller 12V batteries such as found on motorcycles, jet skis, ATVs, lawnmowers, etc.

It is also suitable for maintenance charging "normal-sized" batteries such as car batteries.

CTEK products are supplied as standard equipment (OE) by many prestige motor manufacturers including Porsche, Ferrari, Aston Martin and Lamborghini.

- Compact, fully automatic, intelligent 6-step charger & conditioner
- Simple 'plug & play' operation
- Suitable for all 12V lead acid batteries including Wet, AGM & Gel
- LEDs display charging stage
- Designed to protect vehicle electronics
- Can be left connected without over-charging battery
- Non-sparking, reverse polarity protected
- 5 year warranty

Classic Leather Tool Bag

Classic Leather Tool Bag

RX1856

There's something about a proper leather tool bag that just adds to the classic car experience. New to the Gunson range is this beautiful classic leather example, generously sized, strong and robust, and a perfect addition to any classic car enthusiast's collection.

The approximate size is 150 x 145 x 380mm and it is made from heavy duty leather with stitched and metal riveted seams. The bag is secured with three straps and high quality buckles and features an adjustable shoulder strap.

Classic car owners will find this indispensable for keeping all those essential tools tidy and safe.

Classic style leather tool bag

Approx size 150mm x 145mm x 380mm

Heavy duty oiled leather with studded trim

Three buckle straps plus shoulder strap

Ideal for classic car owners
