A BRITISH COMPANY SUPPORTING BRITISH CARS

Helping you care for your Range Rover L322

Since the early 1980s, Rimmer Bros has specialised in supplying parts for British cars. In 1982 we started selling Classic Triumph parts and by the mid 80's were supplying stainless steel exhaust systems for Land Rovers and other 4x4 vehicles. In 1993, we added to our range of parts catalogues when we began stocking parts for the Rover SD1.

In the summer of 2000, to celebrate 30 years of Range Rover production, we launched our parts catalogue for the Range Rover Classic. This was a natural move, as a vast number of Range Rovers are powered by the Rover V8 engine - a subject in which we specialise. This was followed by our Discovery, Discovery Series II, Range Rover P38a, Range Rover Sport (up to 2009), Freelander, Defender (up to 2006), Defender (2007 on) and Discovery 3 parts and accessories catalogues. In 2005, Rimmer Bros set up an MG Rover Parts business covering all models and more recently, Jaguar 1998 on.

We are now pleased to introduce our latest parts and accessories catalogue for the L322, the third series of Range Rover. This catalogue lists a continuously growing range of genuine, original equipment manufacturer (OEM) and aftermarket parts and accessories. Our web site also features this catalogue and lists recently introduced products and parts updates.

Please note that our catalogue covers UK, European, North American and, to a lesser extent, Rest of the World (ROW) models. Although most parts listed are common to all markets, there are sometimes specific parts for certain countries that are different to those listed herein. If unsure, please contact us quoting your full VIN number.

Our customers are owners, garages and other specialists looking for a fast, reliable source of original and high quality aftermarket parts and accessories available by mail order or over the counter. We have the latest technology to ensure orders are processed efficiently and despatched promptly to wherever you are - UK or worldwide.

Our aim with this catalogue is to apply our expert parts service to the Range Rover L322, helping you to maintain and enhance your vehicle at affordable cost.

APPROVED BY LAND ROVER

Rimmer Bros is an authorised Land Rover Parts Distributor. This means we have access to the full range of genuine Land Rover parts - for every model.

This catalogue features genuine parts throughout - at affordable prices - alongside aftermarket parts.

The added advantage of being able to order a part for any Land Rover from the convenience of your home or workplace, means the Rimmer Bros service is hard to beat!

THE CARS WE SPECIALISE IN

As well as caring for your Range Rover L322, we also supply parts for Range Rover, Discovery, Evoque, Defender, Freelander, 90/110 & Land Rover 'Series' vehicles. Additionally, we also supply parts for Triumph TR2-8, Stag, Herald, Vitesse, Spitfire, GT6, 2000/2500/2.5Pi, Dolomite, Rover SD1, MG Rover cars including - Rover 100/200/400/600/800/25/45/75/ZR/ZS/ZT, MGF & MG TF. In addition we are developing a range of fast moving parts for Jaguar 1998 on models.

Please refer to inside rear cover for details on all our catalogues.

UK & WORLDWIDE

How to Order

WEBSITE	www.rimmerbros.com
TELEPHONE	UK - 01522 568000 Overseas - +44 1522 568000 From the USA - 1 855 7462767
EMAIL	lrsales@rimmerbros.com
FAX	UK - 01522 567600 Overseas - +44 1522 567600
POST	Triumph House, Sleaford Road, Bracebridge Heath, Lincoln LN4 2NA, England
COLLECT IN PERSON	Our sales counter is open 8.30am-5.30pm Monday-Friday and 8.30am-1pm Saturday. <i>We also offer a 'click and collect' service to save you time.</i>

PAYMENT

We accept all major credit, debit and charge cards and also Paypal on orders where all items are in stock. Orders can also be pre-paid by bank transfer (in GBP/Euro/US Dollar- see website or Price Guide for details) or cheque (in GBP-please allow a few extra days for clearance). If you send cash or Rimmer Bros Vouchers, please use registered mail, as we cannot accept responsibility for any loss.

PRICING

There are no prices in this catalogue. Use it to select the parts you need, then check the cost by referring to our website or the separate Price Guide/DVD. Our website gives up-to-the minute information regarding availability and the price of any item.

All orders will be invoiced and charged in GBP. All goods are sold subject to the price ruling at the time of invoicing.

VAT

For details on VAT, & VAT exempt sales, please refer to our website or Price Guide/DVD.

THE LAND ROVER PARTS SPECIALIST

PART NUMBERS & IDENTIFICATION

We identify parts so that you know what you are buying. When there are alternatives to the original Land Rover part, we use a simple numbering system so that you can select the part that best suits your needs and budget. This avoids any confusion when comparing quality and price:

- **Genuine (Land Rover boxed) part** – will have a plain number
- **OEM (original equipment manufacturer) part** – will have a P1 suffix
- **Aftermarket (reproduction) part** – will have a P suffix

In addition, there is also equivalence with certain Rover/Triumph numbers or when we use our own part number where no original part number exists.

QUOTATIONS, BACK ORDERS & SPECIAL ORDERS

Quotations

If you require a written quotation for the part(s) and/or delivery charge(s) before ordering, please contact us.

Back Orders

Back-ordered parts are not charged for until despatch. Upon despatch we will charge the price (in GBP) quoted at the time of ordering. Prices will be unaffected by any subsequent price alterations unless advised in writing to you. Please notify us in writing (letter, fax or email) if you wish to cancel any back ordered items. Back orders are automatically cancelled after 3 months. Back Ordered parts will be sent carriage free (some exclusions apply for export overseas). If you would prefer that your order is sent complete, please request this at the time of ordering.

Special Orders

Certain items (coloured trim, carpets, one-off type parts, etc) are sometimes only available by special order. This means we have to order them for you specially from the manufacturer. For this reason, we require a 20% non-refundable deposit upon taking your order. The balance is payable when the goods are despatched. Please note that special order items can take several weeks to be supplied and are non returnable.

DESPATCH AREA

SHIPPING

At Rimmer Bros, we opt to use the best carriers in the business to ensure your order is delivered safely, securely and on time. The shipping method and cost is based upon what you order, where you want the parts sending and how quickly you want them.

Orders are despatched as soon as practically possible. If your parts are required urgently and you want an express delivery service, please tell us.

For shipping methods and guide prices, (including packaging and handling), please refer to our website or Price Guide.

Shipping charges for export of oversize parcels outside the UK may need to be quoted once the order is picked and packed.

Once your order is shipped and providing we have your email address, we will email confirmation to you, including tracking information if applicable.

Delivery times will be dependent on location and delivery method selected.

Please note that certain 'hazardous' products, such as aerosols, paints, fluids and chemicals cannot be sent via post or by air freight.

RETURNS & EXCHANGE OLD UNITS

Returns

Please refer to our website or Price Guide for full details.

All returns must be pre-authorised with a returns authorisation (RA) number. Returned products without an RA number will be subject to delay and possible return to sender. All returns are subject to a physical inspection. **We must have received and inspected the product before an exchange or credit can be issued.**

WARRANTY & LEGAL INFO

Please refer to our website or Price Guide for full details.

Parts Warranty

All new and reconditioned parts are covered by a 12 month manufacturer's warranty unless specifically stated. You should notify us immediately if a potential warranty situation arises. We will then advise a course of action. Any suspected faulty part must be returned to us together with the original invoice or proof of purchase and with as much information relating to the problem as possible. **Please note that a defective part must be returned and received by us before it can be exchanged.** All warranty parts are subject to a physical inspection. This may involve returning the part to our supplier to verify the fault before it can be exchanged.

Legal Info

Errors & Omissions Excepted. Please tell us if you think something is wrong in our catalogue. All parts offered subject to availability. All part numbers, illustrations and photographs used are intended for reference and identification purposes only and are not necessarily an exact representation of the goods supplied. Photographs of parts should be considered indicative of what we supply rather than an exact representation as sources of supply and manufacture can change. Whilst we make every effort to ensure the accuracy of product descriptions, illustrations and photographs, they are based upon information supplied by the manufacturer or distributor at the time. There may be occasions - due to circumstances beyond our control - when specifications are changed, or when goods become temporarily unavailable. Certain part numbers may have been superseded to an alternative number when a later version or updated specification is offered.

A New Range Rover Fit For a New Century

The original Range Rover, known since 1995 (the last year of its production life) as the Range Rover Classic, was a true icon of motoring history. It sold for 25 years and, despite the fact that it had fallen behind competitors in several respects towards the end of that period, it was still the most desirable 4x4 in the world, still had the most presence on the road and was still supremely capable off it.

In 1994 the second generation Range Rover was unveiled. Press and public alike soon adopted its in-house project name 38A - soon corrupted to P38A. 'Difficult second album' would have been a good name too, in music industry speak. Not that it wasn't a good car; the trouble was the Range Rover Classic wasn't an easy act to follow and the designers and engineers didn't have a big budget to work with, either. As a result 38A would definitely move Range Rover forward... just not enough, in terms of technological progression, or styling, or presence, or reliability.

Just before 38A was launched, BMW bought Rover Group and with it, Land Rover. The new owners realised that the new Range Rover, which still used the great but venerable Rover V8 engine and an outdated ladder frame chassis, would not have a long sales life. They quickly decided to embark upon an entirely new Range Rover project, 'L30', featuring BMW engines, a monocoque body (a structural bodyshell without the need for a chassis) and a return to the Classic's presence on the road.

BMW's L30, Ford's L322

The new engines, ZF transmission (automatic only, for the first time in a Range Rover), rack and pinion steering (again, a Range Rover first) and the monocoque body would at last provide the refinement in ride and handling the Range Rover needed to hold its own in the luxury sector. The refinements didn't come easily, because off-road ability was not to be compromised. The monocoque would be the biggest yet in the world and the steering would need a lot of work before it could damp out off-road shocks like Land Rover's old fashioned steering box.

Advances in the control of the Range Rover's air springs allowed for the first time the use of independent front and rear suspension. On-road, this meant a huge ride quality improvement over the L30's predecessors with their ancient 'live' axles. Off-road, electronic management made the air suspension ape the characteristics of the old live axles, to preserve the legendary Land Rover ability. This overcame the Achilles' heel of independent suspension, that of grounding out too easily, which had always prevented its use on serious off-road vehicles before (with a live or rigid axle, as one wheel goes up the wheel on the other side goes down, maintaining clearance - that doesn't naturally happen with independent suspension). As it turned out, L30 had better ground clearance than either previous Range Rover because with its independent suspension the differentials were mounted above the axle centre lines, instead of partly below them.

Initially L30 styling was run as a competition between Land Rover's own team and those of BMW in Germany and the USA. A Land Rover's proposal was chosen to be taken forward, in much-modified form. It incorporated styling cues found on both previous Range Rovers: the floating roof illusion brought about by black window pillars, the clam shell bonnet with its castellated corners and the split tailgate. Aside from these cues, L30 also crucially returned to the 'shouldered' profile of the Classic, whereby the body significantly widened from the baseline of the windows downwards. This gave L30 the solidity and presence that hadn't really been there on 38A. 'Power vents' joining the front wings to the doors would be a popular new styling feature - one that has been maintained on subsequent Range Rovers, too.

Meanwhile, concern was growing about the falling sales of Land Rover's sister company, Rover. In late 1999 BMW decided to rid itself of its 'English Patient' and, after months of uncertainty, in March 2000 it was announced that Rover and MG would be sold to Phoenix, new Mini kept by BMW and Land Rover sold to Ford, the latter to finance the Rover disposal. BMW were very sorry to lose Land Rover. Ford, on the other hand, were delighted to add Land Rover to their Premier Automotive Group alongside Lincoln, Mercury, Aston Martin, Volvo and Land Rover's old stablemate under British Leyland, Jaguar. Within Ford, L30 became L322, a simple project name change that belied the very awkward political and cultural realignments that took place during this last phase of new Range Rover's gestation.

New Owner, New Engines, Even More Refinement

Ford oversaw the readying of L322 for production and guided the car through its eagerly awaited and well received launch at the end of 2001. In little time L322 would establish itself as the best selling luxury car in Britain, as well as in many of the 120 or so markets across the world in which it was on sale. Just to make sure potential customers didn't forget that it wasn't just a very tall luxury car, it took centre stage in the Land Rover G4 Challenge events to emphasise that it was even better off-road than it had been before.

BMW continued to support L322 after the sale to Ford. At the launch, it used BMW's 4.4 litre V8 petrol and 3.0 litre straight six diesel engines, but neither company wanted that to go on for long. Work soon started to find replacements for

the BMW engines. The first petrol engine chosen was the V8 from Jaguar's XJ; at 4.4 litres it was an ideal replacement for BMW's V8 of similar capacity and was even smoother in refinement. Jaguar's barnstorming 4.2 litre supercharged V8 was chosen for top of the range models, identifiable by their mesh grilles, 20 inch wheels and black and silver Land Rover badges, in contrast to the usual green and gold oval.

The new petrol engines were launched in time for the L322 facelift for the start of the 2006 model year. Alongside softened styling for lights, bumpers and grille there would be improved refinement through more sound insulation and the petrol models now came with a 6 speed ZF auto 'box. The replacement for the BMW diesel engine wouldn't be ready until 2007 but when it arrived it really, really was worth the wait.

The BMW straight six diesel, though revered, had always been supplied to Land Rover in detuned form and had left diesel L322s missing the sparkle they should have had. By contrast the new twin turbo 3.6 litre TDV8, developed from the 2.7 litre V6 diesel in Ford's Lion engine family, was literally made for the Range Rover. It's often said that the TDV8 was as perfect a match for L322 as the old Rover V8 had been for the Range Rover Classic and not many would argue the point. It had the smooth power that the Range Rover wanted, with the fuel economy that would see the car through - just - the world financial crisis that broke in 2007. In all markets other than those where diesel wasn't liked, the TDV8 made the 4.4 litre V8 petrol redundant overnight.

2007 also saw the introduction of Land Rover's superb Terrain Response system on the Range Rover, whereby the type of terrain to be traversed could be selected by the driver and the car would work out the settings to do it. Other changes included extra gloveboxes, improved ventilation, revised seats and a new, electronic, parking brake.

Another New Owner, More New Engines

During the worsening financial climate in 2008, Ford recorded huge losses, mainly attributable to its poor home (USA) market performance. As companies often do in such circumstances, Ford decided to concentrate on its core business - and that meant that Jaguar and Land Rover (and the other remaining member of the Premier Automotive Group, Volvo) had to be sold. Jaguar and Land Rover found themselves going to new owners Tata Motors of India. Tata showed themselves to be good custodians of Jaguar Land Rover ('JLR') and the fortunes and the very British characters of the marques - Land Rover in particular - went from strength to strength.

Tata ensured that, despite the global financial near-meltdown, resources continued to be available for product development. This would become apparent in the Range Rover L322's next facelift for the 2010 model year, designed to keep it at the top of its game until the arrival of the next generation of Range Rover in 3-4 years time. At the heart of the facelift would be two new V8 petrol engines, again, this time designed for both Land Rover and Jaguar applications, rather than being lifted from Jaguar as the outgoing 4.2 and 4.4 litre units had been. Both normally aspirated and supercharged units shared the same 5.0 litre capacity but the supercharged engine, rated at a huge 510 bhp, now had 100 bhp more than its 4.2 litre predecessor. The normally aspirated petrol and the TDV8 diesel continued to serve as 'the other engine available', dependant on whether the market in question liked diesels or not.

On the outside, 2010 model year Range Rovers were notable by new lights, grilles and bumpers again, with the radiator grille being much deeper than before. Inside, a new electronic display replaced the instruments and a fascia centre 'infotainment' screen showed driving information to the driver while showing entertainment to the passenger. Surround cameras and adaptive cruise control were also introduced on certain models and 'old tech' halogen headlamps were deleted from the options list.

The last significant changes to L322 occurred for the 2011 model year, when the 3.6 litre TDV8 diesel was replaced by a brand new 4.4 litre V8 unit. Where the 3.6 litre engine had been developed from the Lion 2.7 litre V6 diesel, the 4.4 litre had its beginnings in the later JLR 3.0 litre V6 diesel and would therefore be more suitable to meet forthcoming emissions regulations. Even with the extra emissions equipment, it still managed a very hearty 308 bhp and a max. torque figure that even outstripped that of the supercharged V8 petrol (516lb ft against 460lb ft). The power was channeled through a new 8 speed auto 'box that was exclusive to the new big diesel.

The last L322 Range Rover, a TDV8 Westminster model, rolled off the line in Land Rover's Solihull plant in mid 2012 to take its place in the British Motor Industry Heritage Trust collection. Following the summer shutdown, during which the plant was re-equipped in readiness, production of the fourth generation Range Rover (the 'L405' model) was commenced. The L322 had taken the Range Rover brand from strength to strength through the first decade of the 21st century, despite the difficult last few years of that decade; L405 would hopefully build on that success through the second decade. All the signs are, it is.

VEHICLE IDENTIFICATION

To ensure the parts that you order are correct for your Range Rover L322, you will need to know most importantly the VIN (vehicle Identification Number).

Additionally when ordering engine parts you may in a few circumstances also need to know the engine number. Gearbox, overdrive and axle numbers are mostly not required.

VEHICLE PRODUCTION SUMMARY

2002 Model Year

L322 production begins in mid-2001, ahead of a phased launch process culminating in a public debut in January 2002 at the Detroit Motor Show. Two powertrain options are available: the BMW M62 4.4 litre V8 petrol engine, mated to a 5 speed ZF automatic transmission; or the BMW M57 3.0 litre straight six diesel (referred to as, but never physically badged as, 'Td6'), mated to a GM Europe 5 speed automatic.

2006 Model Year

New headlamps, incorporating side lamps and indicators, distinguish the 2006 model year from its predecessors. Inside, more trim colours are added and the fascia is mildly updated to provide touch screen technology. Bluetooth connectivity and a 14 speaker Harman Kardon entertainment system are now available.

More far-reaching changes include the replacement of BMW's V8 petrol engine by a choice of two Jaguar-sourced V8 petrol units, a 4.4 litre normally aspirated ('N/A') unit or a range-topping 4.2 litre with supercharging. The ZF auto-box used with the petrol engines becomes a 6 speed. The BMW diesel powertrain option continues for another year.

2007 Model Year

A new 3.6 litre V8 diesel engine (developed from Ford's 2.7 litre V6 diesel and regarded as part of the same 'Lion' engine family) finally replaces the BMW 6 cylinder unit. Models with this engine are badged 'TDV8'. The 6 speed ZF auto box is now standard across all models in the range. Terrain Response system is introduced, along with electronic parking brake (EPB). Normally aspirated petrol models receive the same suspension as the supercharged variants.

Inside changes include improved heating and ventilation with greater control and increased outlets, revised fascia and glovebox layout, revised seat designs and, on some models, air conditioned seats. Number of wood veneer components is increased.

2010 Model Year

Petrol engines replaced by two 5.0 litre engines shared with Jaguar, one normally aspirated, the other supercharged. The 3.6 litre TDV8 diesel engine continues with few changes. Latest models identifiable by new light clusters and bumpers front and rear, plus deeper radiator grille. Halogen headlamps no longer available; only xenon and adaptive bi-xenon headlamps now specified.

A new electronic display replaces the conventional instrument pack, while the centre display screens entertainment viewable only by passengers and simultaneously displays driving information only to the driver. Other new technological systems include surround cameras and adaptive cruise control.

2011 Model Year

A new 4.4 litre 'TDV8' diesel, based on the 3.0 litre V6 used in other Land Rover models, replaces the 3.6 litre. At the same time, a new 8 speed ZF automatic gearbox is introduced. Minor trim changes, including new colour schemes, are introduced.

2012 Model Year

Headlamp assemblies styled from different colour materials mark out 2012 model year Range Rovers. L322 production finally ends midway through 2012, ready for production shift to new L405 fourth generation Range Rover after summer factory shutdown.

VIN (Vehicle Identification Number)

The last six characters of the VIN are the serial number of your car. However, the VIN also provides you with considerably more useful information, most importantly the model year of your car (most changes in production relate to model years).

It will also tell you the original factory specification of your car. The complete VIN can be broken down thus:

UK, EUROPE & REST OF WORLD MODELS

(NOT USA, CANADA, MEXICO OR CHINA)

1st, 2nd & 3rd characters -	SAL= Jaguar Land Rover
4th & 5th char. (marque) -	L = Land Rover
5th character (model) -	M = Range Rover L322
6th character (class) -	A = 2880mm wheelbase
7th character (body style) -	M = 4 door body
	K = armoured body
8th character (engine) -	A = 4.4L BMW M62 V8 petrol with std. catalyst
	B = 4.4L BMW M62 V8 petrol with washcoat catalyst
	5 = 4.4L normally aspirated AJV8 petrol
	4 = 4.2L supercharged AJV8 petrol
	D = 5.0L normally aspirated AJV8 petrol
	E = 5.0L supercharged AJV8 petrol
	C = 3.0L BMW M57 6 cyl diesel
	2 = 3.6L TDV8 diesel
	7 = 3.6L TDV8 diesel with DPF
	H = 4.4L TDV8 diesel
	J = 4.4L TDV8 diesel with DPF
9th char. (steering & g/box) -	3 = RHD automatic
	4 = LHD automatic
10th character (model year) -	2 = 2002 model year
	3 = 2003 model year
	4 = 2004 model year
	5 = 2005 model year
	6 = 2006 model year
	7 = 2007 model year
	8 = 2008 model year
	9 = 2009 model year
	A = 2010 model year
	B = 2011 model year
	C = 2012 model year
11th character (mfg. plant) -	A = Solihull, UK
12th to 17th characters -	999999 = serial number

Example:

A vehicle showing SALLMAM738A123456 is -
Land Rover, Range Rover L322, 2880mm wheelbase, 4 door, 3.6L TDV8 diesel with DPF, RHD automatic, 2008 model year, Solihull plant, serial no. 123456.

USA, CANADA, MEXICO AND CHINA ONLY

1st, 2nd & 3rd characters -	SAL= Jaguar Land Rover
4th character (model) -	M = Range Rover L322
5th character (class) -	A = SE (2002-09 models)
	B = HSE without Luxury Pack
	C = HSE with Luxury Pack
	D = Limited edition
	E = HSE without luxury pack, with Logic 7 & bi-xenon
	F = HSE with luxury pack, with Logic 7 & bi-xenon
	G = SE (2010 onwards)
	H = Westminster
	N = China standard trim
	P = Autobiography
6th character (body style) -	1 = 4 door station wagon
7th character (engine) -	A = 4.4L BMW M62 V8 petrol
	5 = 4.4L normally aspirated AJV8 petrol
	4 = 4.2L supercharged AJV8 petrol
	D = 5.0L normally aspirated AJV8 petrol
	E = 5.0L supercharged AJV8 petrol
	C = 3.0L BMW M57 6 cyl diesel
	2 = 3.6L TDV8 diesel
	7 = 3.6L TDV8 diesel with DPF
	H = 4.4L TDV8 diesel
	J = 4.4L TDV8 diesel with DPF
8th char. (steering & g/box) -	4 = LHD automatic
9th char. (check digit) -	0-9 = derived by calculation
10th character (model year) -	2 = 2002 model year
	3 = 2003 model year
	4 = 2004 model year
	5 = 2005 model year
	6 = 2006 model year
	7 = 2007 model year
	8 = 2008 model year
	9 = 2009 model year
	A = 2010 model year
	B = 2011 model year
	C = 2012 model year
11th character (mfg. plant) -	A = Solihull, UK
12th to 17th characters -	999999 = serial number

Example:

A vehicle showing SALMF1E40AA123456 is -
Land Rover, Range Rover L322, HSE with luxury pack, with Logic 7 & bi-xenon, 4 door station wagon, 5.0L supercharged AJV8 petrol, LHD automatic, 2010 model year, Solihull plant, serial no. 123456.

Engine Number, Gearbox Number, Transfer Box Number, Front & Rear Axle Numbers

In contrast to earlier models, the major unit serial numbers on L322 Range Rovers have little significance when determining what parts to order or use. Most powertrain and all drivetrain change points on these vehicles are documented by VIN only in Land Rover parts catalogues.

YOUR VEHICLE DETAILS

**Enter your vehicle details here for easy reference
Required for parts purchasing**

Vehicle Identification Number (VIN):

Engine Number:

IMPORTANT NOTE

Wherever identification/serial numbers are quoted in this catalogue to help you distinguish change points between the fitment of different components, they relate to the Original Factory Specification or Component when the vehicle was new, and not to subsequent miscellaneous replacements.

VEHICLE IDENTIFICATION NUMBER (VIN)

The following illustrations show where the vehicle identification number (VIN) is located on the RR L322:

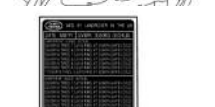

1. Stamped on the front of the RH front suspension turret.

2. At the bottom of the windscreen glass on the LH side of the vehicle, visible from the outside.

3. (UK, Europe and Rest of World)
On a plate attached to the LH inner wing, forward of the suspension turret.

4. (USA, Canada & Mexico only)
On the tyre data and specification label attached to the front of the LH B post.

Service Kits

Service Kits

SERVICE KIT:

4.4L BMW M62 V8 petrol models

(up to (VIN) 5A999999)

*Includes oil, air & pollen filters, plus sump plug washer & spark plugs.
Land Rover & aftermarket kits also include fuel filter (Britpart kits do not).*

Aftermarket	1	RA1485P
Land Rover	1	RA1485

4.4L N/A & 4.2L supercharged AJV8 petrol models

(from (VIN) 6A000001 to 9A999999)

Includes oil, air & pollen filters, plus sump plug & spark plugs.

Aftermarket	1	RA1486P
Land Rover	1	RA1486

5.0L N/A & supercharged AJV8 petrol models

(from (VIN) AA000001 on)

Includes oil, air & pollen filters, plus sump plug & spark plugs.

Aftermarket	1	RA1577P
Land Rover	1	RA1577

3.0L BMW M57 6 cyl diesel models

(up to (VIN) 6A999999)

Includes oil, air, pollen & fuel filters, plus sump plug washer.

Aftermarket	1	RA1484P
Land Rover	1	RA1484

3.6L TDV8 diesel models

Propshafts - Front

WITH TUBE COUPLING TO FRONT AXLE & RUBBER COUPLING TO TRANSFER BOX

**4.4L BMW M62 V8 PETROL,
3.0L BMW M57 6 CYL DIESEL**

FRONT PROPSHAFT ASSEMBLY:

Land Rover	1	TVB500290
Land Rover, alternative	1	TVB500290K

TUBE COUPLING, replacement 1 **TVB500290COUPLINGBP**

The early Range Rover L322 models suffer from a common problem with the coupling shaft spline wearing out between the front propshaft and front differential, thus losing drive to the differential. The problem purely relates to the coupling shaft and the differential itself is not affected. Currently the only solution offered by Land Rover is to replace the propshaft and the whole complete front differential assembly: a very expensive option!

Using this new replacement tube coupling will enable you to replace just the propshaft and coupling and leave the differential in place, therefore reducing both time (the differential need not be removed from the vehicle) and cost.

RUBBER COUPLING, propshaft drive:

aftermarket	1	TIJ000012P

EGR cooler inlet hose	1	1418972
heater outlet to multi connector	1	LR008276
fuel cooler feed, from radiator	1	PIH500052
fuel cooler return, to rad. hose	1	PEH500430

COOLANT HOSE ASSEMBLY - PCH503200

4.4L TDV8 DIESEL MODELS

COOLANT HOSE ASSEMBLY:

radiator top hose	1	LR029140
radiator bottom hose	1	LR022661
auxiliary radiator hose, upper	1	LR022660
radiator to heater water feed	1	LR022672
engine outlet to heater	1	LR022730
<i>Includes connector to heater hoses.</i>		
EGR cooler inlet hose	1	LR022717
EGR cooler outlet hose	1	LR022718
engine outlet to cylinder head	2	LR023144
cooling system bleed	1	LR023142
ENGINE OUTLET, upper connector	1	LR022690
<i>Includes cylinder head hoses, bleed hose, temp. sensor and O ring for upper to lower connector joint. For engine outlet lower connector, please refer to Thermostats.</i>		

Hose Clips

CLIP, coolant hose, worm drive type:

8-12mm	A/R	GHC304
11-16mm	A/R	GHC405
12-20mm	A/R	GHC406

70-90mm, stainless	A/R	GHC10420
80-100mm, stainless	A/R	GHC10421

Water Pumps

4.4L BMW M62 V8 PETROL MODELS

WATER PUMP ASSEMBLY:

aftermarket, new, outright	1	8510324P
OEM , new, outright	1	8510324P1
Land Rover, new, exchange	1	8510324
PULLEY, water pump	1	PQR000030

Not included in water pump assembly.

GASKET, water pump to engine:

OEM	1	PET000050P1
Land Rover	1	PET000050
O RING, water pump union	1	PES000020

4.4L N/A & 4.2L SUPERCHARGED AJV8 PETROL MODELS

WATER PUMP ASSEMBLY, main:

aftermarket, new, outright	1	4575902P
OEM , new, outright	1	4575902P1
Land Rover, new, outright	1	4575902
PULLEY, water pump	1	4359078

Not included in water pump assembly.

GASKET, water pump to engine

WATER PUMP ASSEMBLY, auxiliary:

4.2L supercharged AJV8 petrol models only.

OEM , new, outright	1	PEB500010P1
Land Rover, new, outright	1	PEB500010

Thermostats

4.4L BMW M62 V8 PETROL MODELS

COOLING SYSTEM THERMOSTAT:

Includes housing & O ring.

aftermarket	1	PEL000060P
OEM	1	PEL000060P1
Land Rover	1	PEL000060
O RING, thermostat housing	1	PES000020
OIL COOLER THERMOSTAT:		
OEM	1	PBM000010P1
Land Rover	1	PBM000010

4.4L N/A & 4.2L SUPERCHARGED AJV8 PETROL MODELS

COOLING SYSTEM THERMOSTAT:

with housing, cover, elbow, sensor & seals

4.4L N/A AJV8 petrol		
Land Rover	1	LR007604
4.2L supercharged AJV8 petrol	1	LR007603
thermostat only		
aftermarket	1	LR005765P
OEM	1	LR005765P1
Land Rover	1	LR005765
thermostat cover only	1	LR007605
O RING, thermostat housing:		
37mm diameter	A/R	4413478
53mm diameter	1	4359953
54mm diameter	1	4024557
69mm diameter	1	4362513

5.0L N/A & SUPERCHARGED AJV8 PETROL MODELS

COOLING SYSTEM THERMOSTAT:

In-line, with housing.

OEM	1	LR032135P1
Land Rover	1	LR032135
CLIP, hose to thermostat	2	LR034109

5.0L N/A & SUPERCHARGED AJV8 PETROL MODELS

WATER PUMP ASSEMBLY, main:

Includes pulley.

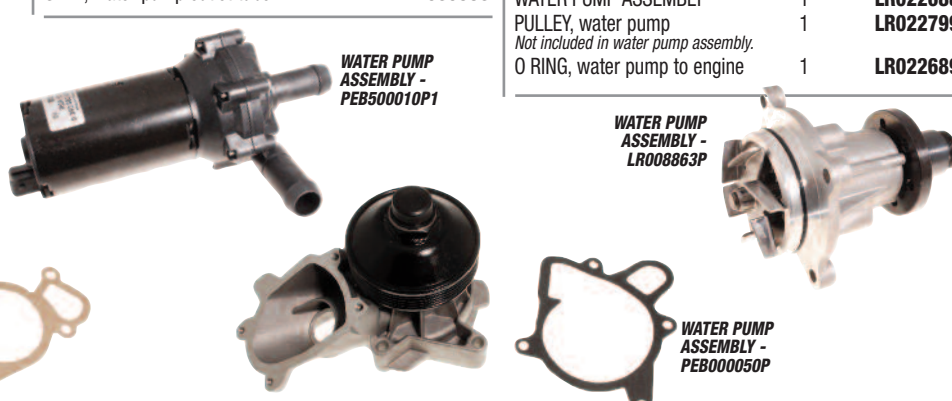

aftermarket, new, outright	1	LR097165P
Land Rover, new, outright	1	LR097165
GASKET, water pump to engine:		
aftermarket	1	LR049370P
Land Rover	1	LR049370

WATER PUMP ASSEMBLY, auxiliary:

5.0L supercharged AJV8 petrol models only.

OEM , new, outright	1	PEB500010P1
Land Rover, new, outright	1	PEB500010
WATER PUMP OUTLET TUBE:		
<i>Includes seal.</i>		
aftermarket	1	LR028136P
Land Rover	1	LR028136

SEAL, water pump outlet tube	1	LR030593
------------------------------	---	-----------------

3.0L BMW M57 6 CYL DIESEL MODELS

COOLING SYSTEM THERMOSTAT:

Includes housing & O ring.

aftermarket	1	PEL000050P
OEM	1	PEL000050P1
Land Rover	1	PEL000050
GASKET, thermostat housing:		
aftermarket	1	PEF000040P
Land Rover	1	PEF000040
THERMOSTAT, EGR cooler	1	PEL000070

3.6L TDV8 DIESEL MODELS

THERMOSTAT ASSEMBLY:

with housing, cover, elbow, sensor & seals	1	LR004318
engine thermostat only	1	LR003341
engine thermostat seal only	1	LR025969
EGR thermostat only	1	LR003335
EGR thermostat clip only	1	LR003339
EGR thermostat elbow only	1	LR004320
EGR thermostat elbow seal only	1	LR003336
O RING, t'stat housing to engine	1	LR004319

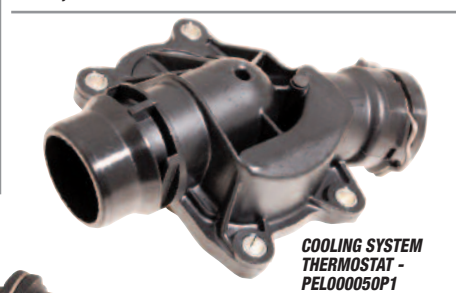

4.4L TDV8 DIESEL MODELS

THERMOSTAT ASSEMBLY ('water outlet lower connector'):

with housing, cover & seals	1	LR022695
thermostat only	1	LR023138
thermostat cover seal only	1	LR023141

O RING, t'stat housing to engine

Also used for joint between thermostat housing and water outlet upper connector (hence qty of 2 shown). One is included in the thermostat assembly.

3.0L BMW M57 6 CYL DIESEL MODELS

WATER PUMP ASSEMBLY:

Includes pulley.

aftermarket, new, outright	1	PEB000050P
Land Rover, recond. exchange	1	PEB000050E
Land Rover, new, exchange	1	PEB000050
GASKET, water pump to engine	1	8510300

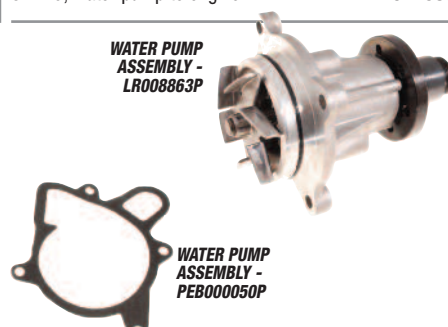

3.6L TDV8 DIESEL MODELS

WATER PUMP ASSEMBLY:

aftermarket, new, outright	1	LR008863P
Land Rover, new, outright	1	LR008863
PULLEY, water pump	1	PQS500530
<i>Not included in water pump assembly.</i>		
O RING, water pump to engine	1	LR002750

4.4L TDV8 DIESEL MODELS

WATER PUMP ASSEMBLY	1	LR022688
PULLEY, water pump	1	LR022799
<i>Not included in water pump assembly.</i>		
O RING, water pump to engine	1	LR022689

Engine Oil Coolers & Auxiliary Radiators

4.4L BMW M62 V8 PETROL MODELS

OIL COOLER, engine	1	LPU000020
<i>Includes oil filter assembly.</i>		
PIPE ASS'Y, engine oil cooler:		
feed (front)	1	LQP000030
return (rear)	1	LQP000040
return (from adaptor)	1	LQP000050
OIL COOLER, transmission:		
OEM	1	PFD000020P1
Land Rover	1	PFD000020
PIPE ASS'Y, transmission oil cooler:		
with transmission banjo union	1	UBP000161
with transmission screw union	1	UBP000180
BRACKET, oil cooler pipe support	1	UBU500160
CLAMP, oil cooler pipe support	2	UBU100180

4.4L N/A AJV8 PETROL MODELS

OIL COOLER, engine:		
aftermarket	1	4526544P
Land Rover	1	4526544
OIL COOLER, transmission	1	LR013046
PIPE ASS'Y, transmission oil cooler:		
up to (VIN) 7A253760		
to upper cooler union	1	UBP500380
to lower cooler union	1	UBP500300
from (VIN) 7A253761 on	1	UBP500400
<i>One cluster assembly of both feed and return pipes.</i>		
OIL COOLER KIT, heavy duty, trans.	1	LR014432
<i>Originally for Gulf States models from (VIN) 8A000001 on only.</i>		
<i>Includes additional oil cooler, mounting frame and two pipes.</i>		
OIL COOLER, heavy duty, trans.	1	PFZ500030
<i>Included in heavy duty oil cooler kit.</i>		
PIPE ASSEMBLY, heavy duty transmission oil cooler:		
with straight unions	1	UBH500110
with 90° unions	1	UBH500120

4.2L SUPERCHARGED AJV8 PETROL MODELS

OIL COOLER, engine	1	LR015152
FRONT AUXILIARY RADIATOR:		
aftermarket	1	LR012759P
Land Rover	1	LR012759
SIDE AUXILIARY RADIATOR:		
<i>Does not include shroud.</i>		
up to (VIN) 6A999999	1	PBC500220
from (VIN) 7A000001 on	1	PBC500210
BUSH, rubber, side auxiliary radiator mounting:		
male (rear)	4	PDI500020
female (front)	4	PCG500050
PAD, foam, side aux. rad. mounting	2	ETC500440
PIPE ASS'Y, engine oil cooler to side aux. rad.:		
to auxiliary radiator upper union	1	PBP500300
to auxiliary radiator lower union	1	PBP500290
OIL COOLER, transmission	1	LR013046
PIPE ASS'Y, transmission oil cooler:		
up to (VIN) 7A253760		
to upper cooler union	1	UBP500380
to lower cooler union	1	UBP500300
from (VIN) 7A253761 on	1	UBP500400
<i>One cluster assembly of both feed and return pipes.</i>		

5.0L N/A AJV8 PETROL MODELS

OIL COOLER, engine	1	LR010754
GASKET, engine oil cooler	1	LR010770
SEAL, union, engine oil cooler	1	LR030593
OIL COOLER, transmission	1	LR013046
PIPE ASS'Y, transmission oil cooler	1	LR037949

Engine Electrics - Alternator & Starter Motor

4.4L BMW M62 V8 PETROL MODELS (UP TO (VIN) 5A999999)

ALTERNATOR ASSEMBLY:

aftermarket, new, outright	1	LR005866P
OEM, new, outright	1	LR005866P1
Land Rover, recond., exchange	1	LR005866

STARTER MOTOR ASSEMBLY:

Land Rover, new, exchange	1	NAD000030
Land Rover, recond., exchange	1	NAD000030E

4.4L N/A & 4.2L SUPERCHARGED AJV8 PETROL MODELS

(FROM (VIN) 6A000001 TO 9A999999)

ALTERNATOR ASSEMBLY:

aftermarket, new, outright	1	YLE500390P
OEM, new, outright	1	YLE500390P1
Land Rover, new, exchange	1	YLE500390

STARTER MOTOR ASSEMBLY:

aftermarket, new, outright	1	NAD500320P
Land Rover, new, exchange	1	NAD500320

5.0L N/A & SUPERCHARGED AJV8 PETROL MODELS

(FROM (VIN) AA000001 ON)

ALTERNATOR ASSEMBLY:

OEM, new, outright	1	LR091107P1
Land Rover, new, outright	1	LR091107

STARTER MOTOR ASSEMBLY:

OEM, new, outright	1	LR011262P1
Land Rover, new, exchange	1	LR011262

3.0L BMW M57 6 CYL DIESEL MODELS (UP TO (VIN) 6A999999)

ALTERNATOR ASSEMBLY:

aftermarket, new, outright	1	YLE500180P
Land Rover, new, exchange	1	YLE500180
Land Rover, recond., exchange	1	YLE500180E

STARTER MOTOR ASSEMBLY:

aftermarket, new, outright	1	NAD000090P
Land Rover, new, exchange	1	NAD000090
Land Rover, recond., exchange	1	NAD000090E

3.6L TDV8 DIESEL MODELS

(FROM (VIN) 7A000001 to AA999999)

ALTERNATOR ASSEMBLY:

aftermarket, new, outright	1	LR026344P
Land Rover, new, exchange	1	LR026344

STARTER MOTOR ASSEMBLY:

OEM, new, outright	1	LR032541P1
Land Rover, new, exchange	1	LR032541

4.4L TDV8 DIESEL MODELS

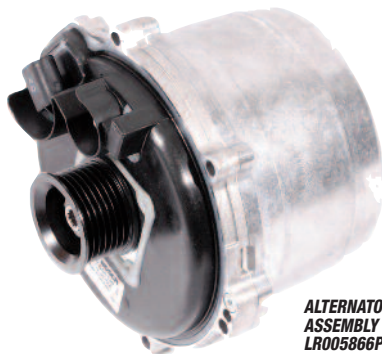

(FROM (VIN) BA000001 ON)

ALTERNATOR ASSEMBLY:

OEM, new, outright	1	LR072762P1
Land Rover, new, exchange	1	LR072762

STARTER MOTOR ASSEMBLY:

OEM, new, outright	1	LR032541P1
Land Rover, new, exchange	1	LR032541

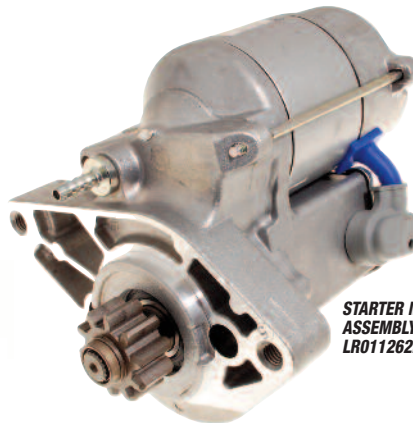

ALTERNATOR ASSEMBLY - LR005866P1

ALTERNATOR ASSEMBLY - YLE500390P1

Touch Up Paint

Confirming the correct paint colour name for your car may be done by reading the paint name on the VIN plate, under the bonnet. Touch up pencils and aerosols for all of the standard paint colours are listed here, together with the Land Rover three digit codes for each colour (car body repair workshops know and match your car's colour by this code).

For reference purposes the Land Rover/MG Rover standard three letter codes are also shown; you will see these letter codes used as suffixes on the part numbers of colour coded spare parts. For example, some of the touch up paint part numbers on this page use them - a paint pencil in Rimini Red is VEP501730CBK, where VEP501730 is a paint pencil and CBK is Rimini Red.

Each standard colour paint touch up kit includes both base colour and top coat lacquer, in either pencils or aerosol cans. Lastly, just to say Land Rover classify Adriatic Blue as being in the Grey family. That's where you'll find it on this page, rather than with the Blues - it's not an error!

please note

AEROSOLS
Please note: Aerosols are classed as hazardous and that shipping restrictions apply. Aerosols can not be exported and can only be sent via carrier (not post) to UK mainland destinations. Touch-In pencils and aerosols are non-returnable.
